FRENCH CARRY OUT FIRST EXECUTION

SHOOT FORMER OFFICER; CHOAS LOOMS IN RUHR

Alfred Schlegel Accused of Heading Murder Gang Along the Rhine

WORKERS MAKE APPEAL

Ask For Help, Declaring That Conditions in Ruhr Are Drifting to Chaos

Duesseldorf, May 26.—Alfred Schlegel was executed by French troops today for sabotage on railroads in the occupied region and other offenses. He was shot in a stone quarry near a cemetery and his body was delivered forthwith to cemetery authorities. This is the first execution in the occupied zone.

Schlegel was escorted to the quarry by two priests and went unalteringly to his death. Ten shots were fired at him.

Besides sabotage Schlegel, a former Prussian officer, was convicted by a French court martial of espionage and association with criminals. He admitted he had blown up railroad tracks and bridges.

The French regarded him as the chief of the murder gang which has been carrying on a campaign of terror against the occupation of the Ruhr.

Appeal Made.

Dortmund, May 26.—Chaos is inevitable in the Ruhr unless intervention comes immediately, says a telegraphic appeal sent to the new social workers internationale at Hamburg by the Dortmund general trades union.

The message says: "The Ruhr occupation has intensified conditions of distress and had aided revolt. Bloody fighting has occurred in several places."

BLOOD SHED IN RIOT

Hochum, Germany, May 26.—Communists disorders broke out here yesterday similar to those in Dortmund and Gelsenkirchen. During an assault on Bourgeois newspaper offices firemen, acting as police, clashed with the Communists and several persons were wounded. Shops were pillaged during the rioting.

The occupation authorities remained neutral.

INCOME TAX IS INCREASED

State to Collect Twice the Amount It Did Last Year

Income tax paid by corporations to the state of North Dakota for the year 1922 will be slightly more than double the amount paid during 1921.

The state tax commissioner's office today certified to the state treasurer for collection the corporation income tax for 1922, which totals \$237,684.44. This is compared to \$113,617.18 certified for the year 1921.

Tax Commissioner C. C. Gervase said: "The work of auditing income tax returns of corporations has progressed far enough so that it is possible to make a comparison of corporation income taxes of this year with those of last year. A final result has not been reached as to a final comparison, but the taxes on corporations whose taxes thus far determined amount to \$237,684.44 as compared with \$113,617.18 in 1922. This increase is not due to a change in the law for the new law does not apply to this year's tax, but is due entirely to improved business conditions. Banks continue to show smaller incomes than corporations engaged in certain mercantile lines, but no detailed analysis of the figures for comparative purposes has been made as yet."

WOULD ENJOIN ROAD CONTRACT

Reapers have been served on the state highway commission in a motion brought by E. F. Stevens, H. O. Stevens, W. A. Stevens and C. R. Stevens in Ward county to restrain the board of county commissioners of that county and the highway commission from letting a contract for a federal aid road project in Ward county to Druehl and Kemper, contractors. Judge Lowe of Minot issued a temporary injunction, returnable May 28.

The plaintiffs alleged that the bid of Druehl and Kemper was not the lowest responsible bid, stating it was \$60,266.50 while Herman Webster and son bid \$67,172.44. The contract is let by the board of county commissioners.

HAIL THE CONQUERING HERO!

Jack Dempsey's entry into Great Falls, Mont., was triumphant. Half the town turned out to welcome him. Here we see the champion leading the parade, doffing his cap to the ladies as the columns swing along. Dempsey is finishing his training for his fight with Tommy Gibbons at Shelby, Mont., July 4, in the Montana Livestock Pavilion in Great Falls.

COL. LITTLE OBJECTS TO BUILDING OF FILTRATION PLANT URGING THERE IS NO NECESSITY

Editors Note:—Request has been made by C. B. Little, Vice-President of the Bismarck Water Supply Co., to print a series of three articles upon the utility's standpoint. This article in no way should be construed as representing the viewpoint of The Tribune on the issue. The position of this paper on the issues involved have been made very plain editorially from time to time.

By C. B. Little, Vice-President Bismarck Water Supply Company.

Should the city under any plan construct a filtration plant the public will pay for its construction, interest on investment, depreciation and operating expense.

Should the company install a plant the consumer must pay a reasonable rate of return on the investment, depreciation and operating expense.

The company objects to such an expense on the consumers at this time where the cost of construction will be excessively high because there is no necessity in Bismarck for such a plant. However, that question is now before the courts.

To force the building of such a plant at this time the extreme advocates have agitated the people to a high state of excitement by telling them that we must have a filtration plant in order to have pure water.

Functions of Plant

They do not explain the functions of a filtration plant neither do they explain the difference between purification which means water must be treated in order not to be injurious to the health, and clarification and sedimentation meaning to settle and clear the water, to improve its appearance.

Where B. coli, typhoid fever germs are present in water filtration will not eliminate such germs. Chlorine gas and chemicals must be used to destroy them. As an illustration take the Red River water. It could not be used under any circumstances if same were filtered only, because the germs would still remain in the water after filtration. Hence Fargo treats its water for germs also at a cost of \$18,000 a year for the operation of the filtration plant and treatment of water, yet with all this thousands of its citizens continue to buy artesian and spring waters for culinary and drinking purposes.

We contend with sanity and reason that no filtration plant is necessary for the purification of the water. We do admit, however, that such a plant would make the water more pleasing in appearance, can the city at this time afford to place a burden of \$150,000 on the taxpayers for a filtration plant to obtain this one object.

231 GRADUATE AT AG. COLLEGE

Fargo May 26.—Two hundred thirty-one graduates from 11 states and 132 cities and towns will be the total of the 1923 classes at the North Dakota Agricultural college, according to official announcement of June commencement lists made today.

The class is the largest in college history, comparing with the 194 last year the second largest.

The increase has been in collegiate courses and graduate work, the high school and industrial courses remaining about the same. This year the college seniors number 111 as against 61 in 1922. Eleven master's degrees will be granted as compared with three last year. High school graduates are 80 in number, showing an increase of five over 1922. The industrial course class numbered 29 this year and 28 last year.

The June commencement programs for the college and high school were announced in detail today.

COMMITTEE ON WATER MATTER IS APPOINTED

Mayor Lenhart Names Five Citizens to Act with the City Commission

TO CONSIDER BIDS

Committee Will Advise City Commission in Settlement of Various Problems

A citizen's committee of five members was named today by Mayor A. P. Lenhart to aid the city commission in considering the problems involved in the settlement of the water question in Bismarck.

The members are: Dr. N. O. Ramsdell, Julius Sell, A. W. Lucas, P. C. Remington, H. J. Duemeland.

The committee was authorized by the city commission at a meeting last Monday night, and Mayor Lenhart has conferred with the members of the city commission in selecting the committee.

It is expected that the committee will aid the commission in considering the bids to be received on Monday night for the construction of a water works system, or for remodeling the present water works system of the city.

The committee also will advise the commission in any dealings with the Bismarck Water Supply company.

In making the announcement of his committee, Mayor Lenhart felt satisfied that he had chosen men of ability, of long residence in Bismarck, of interest in the city and primarily, interesting in a solution of the problems involved in the interest of the citizens generally and not for any special interest.

A large number of bids are expected by the commission Monday night for the construction of a new water works system.

9 CANDIDATES SEEKING TOGA IN MINNESOTA

Governor Preus Is Eighth Candidate and Hibbing Mayor Is the Ninth

St. Paul, May 26.—Governor J. A. O. Preus was the eighth candidate to file in the senatorial race to succeed the late Senator Knute Nelson. Governor Preus made no statement when he filed on the Republican ticket today.

The ninth candidate to add his name to the swelling list of entries was Victor L. Power, mayor of Hibbing, who also filed today on the Republican ticket. Mr. Power, who said he had no statement to make at this time, declared he would open a vigorous campaign at Hibbing today or Sunday.

WON'T BREAK WITH RUSSIA

London, May 26.—Great Britain has decided that there shall be no break with Russia. It is held in diplomatic circles that while the last note from Moscow is in some respects not wholly satisfactory the remaining points in the dispute with the Soviet government are susceptible of solution by negotiations.

TO REORGANIZE DAIRY CIRCUIT

At a meeting of the agricultural committee of the Association of Commerce this morning steps to aid in re-organizing the Bismarck Holstein Presian dairy circuit were discussed. A special committee composed of J. A. Graham, Geo. Duemeland, J. L. Kelley and F. A. Lahr was named to devise ways and means. Steps also were taken to assure representation of Bismarck at the New Salem circuit annual meeting in June.

TRAIL BOOSTING PLANNED.

Williston, N. D., May 26.—T. C. Hutchinson, secretary of the North Dakota division of the Roosevelt International Highway association, and Harry Taylor, international secretary plan to visit every town on the North Dakota division this summer and acquaint the people of the advantages of this highway. It is desired to increase the highway's facilities for taking care of the tremendous tourist traffic that is expected over this route this year.

BOSS OF LASH LOSES BATTLE AGAINST STATE

Change of Venue Is Won in Trial of Walter Higginbotham on Murder Charge

GOES TO LAKE CITY

State Alleged Putnam Lumber Company's Influence Controlled the County

Cross City, Fla., May 26.—With the date remaining to be set, the trial of Walter Higginbotham on a charge of first degree murder in connection with the death of Martin Tabert of North Dakota in Dixie county convict camp, will be held in the near future at Lake City, Columbia county.

The prosecution yesterday won a change of venue after both sides had presented affidavits relative to the possibility of Higginbotham securing a fair trial in Dixie county.

The Putnam Lumber company held the center of the arguments over the change of venue, the state contending that it owned more than half of the land in the county; that it paid 65 per cent of the county taxes, and that it had powerful political influences. The defense contended the lumber company did not figure whatsoever in the case; that Higginbotham has not been in the employ of the company since February 5, 1922, five days after Tabert is alleged to have died, and that neither the company nor its officials could interfere with the defendant getting a fair trial here.

Defense Has Affidavits.

Stafford Caldwell, assistant state attorney, presented an affidavit during the afternoon session to refute the document offered by the defense this morning and signed by 85 citizens that the defendant could receive a fair and impartial trial.

This instrument was accompanied by 15 individual affidavits. The state's affidavit tended to show that 48 of those who signed the defense's papers were employees of the Putnam Lumber company.

The defense first contended that the affidavits secured by the state in seeking a change of venue were circulated around by W. H. Matthews, former county judge, now under indictment charging first degree murder. It was ascertained Matthews was indicted by the grand jury yesterday for an alleged crime committed approximately two years ago. He is charged he aided in burning a negro to death. It was learned that the case had been investigated several times and only this grand jury could secure sufficient evidence to return a true bill.

Grimson Attacked.

L. E. Wade, representative in the Florida legislature, and leading counsel for the defense, scored the newspapers and attacked the presence of G. Grimson, assistant attorney general of North Dakota, who has been investigating the Tabert case for some time. He declared that the North Dakotan was here primarily to secure evidence in which to base a suit for damages against the Putnam Lumber company.

The legislator also attacked the Florida legislature for the attention given to the convict reform at this session.

The Weather

For Bismarck and vicinity: Partly cloudy and cooler tonight. Sunday somewhat unsettled and cooler.

For North Dakota: Partly cloudy tonight; cooler west portion. Sunday somewhat unsettled and cooler.

General Weather Conditions

The pressure is low over the Rocky Mountain region and precipitation fell from the northern Rocky Mountain region to the north Pacific Coast. Heavy precipitation occurred at St. Louis, Mo. Fair, warm weather prevails over the Plains States and maximum temperatures in North Dakota ranged from 80 to 90 degrees yesterday.

Road Conditions

Highways are generally in good to excellent in all parts of the State.

BRITISH DENY JURISDICTION OF U. S. SUPREME COURT IN BANNING RUM RATIONS FROM U. S. SHIP PORTS

Washington, May 26.—In a formal representation to the state department the British government is understood to have taken the position that American port authorities have no jurisdiction in the international law to interfere with the bringing of liquor into American waters by foreign vessels as a part of their regular supplies.

A formal communication on the subject was transmitted to Secretary Hughes today by Sir Auckland Geddes, the British ambassador.

The British position is understood to be based on the construction that the jurisdiction of American officials over foreign ship cargoes intended for transportation into the United States in no way interfered with the ship rations or supplies.

The British view, apparently in conflict with the United States supreme court position, is presented as the treasury department is formulating regulations to carry out the decision and at the same time it is understood to satisfy the position of foreign governments. There is indication today that they have found a way to accomplish this by permitting foreign ships to list the wine ration of their crews as a part of the medicinal stores allowable under the law. None of the treasury officials would comment on the action of the British but it was understood that representations had been expected. Publication of the proposed regulations which are to go into effect June 10 will be made at the earliest possible date, it was said.

SHOWERS SEEN IN NEXT WEEK

Washington, May 26.—Weather outlook for the week beginning Monday; Upper Mississippi valley—considerable cloudiness and occasional showers first half, generally fair thereafter temperature near normal.

SLOPE ONLY COUNTY THAT CAN RECOVER

Other Claims Made Against The State Bonding Fund Disallowed

Although some other political subdivisions of the state lost money in closed banks none are in the position of Slope county to recover from the State Bonding Fund by court action, in the opinion of Harold Hopton, manager of the department. Slope county won a \$50,000 verdict against the fund in the supreme court, because of money lost by the treasurer in depositing in banks which were held to have not furnished proper bonds and which later closed.

The state law requires claim against the State Bonding Fund to be made within 60 days after discovery of a condition on which action is based, and no other counties complied with this, he stated. Renville county recently made a claim of \$30,000 against the former treasurer and the bonding fund, which Mr. Hopton held should be denied because the law had not been complied with.

A conference of the state fund board is expected to be held soon to decide if any further action will be taken in the Slope county case. The fund has plenty of money to meet the claim, according to Mr. Hopton. On April 30 there was \$168,681.04 cash reported, accounts receivable were \$9,981.63; registered warrants \$7,093.86 and real estate valued at \$2,400.

NEW ROAD IS NOW COMPLETE

To Be Opened Soon—Speeders Are Given Warning

The new concrete road between Bismarck and the new bridge will be opened for travel about June 14. The work on the road is completed, and the concrete will set for about three weeks.

With the appetite of speeders sharpened by the near-finish of the road, and the increase in the number of auto- on the road during warm weather, Chief of Police Martenson today issued a request of all autoists to guide the safety of themselves and others by careful driving.

With this warning and with an announcement that a copy of the traffic laws may be obtained at the police station, there will be no excuse for a speeder when arrested, he said.

Care in turning corners, testing of brakes, attention to lights and keeping within the speed limit are within the chief's admonition to motorists.

ESCAPED MURDERER AGAIN ELUDES WISCONSIN POSSE; POLICE ON HEELS

Madison, Wis., May 26.—Just a few moments ahead of his pursuers, John L. Whitfield, wanted for the killing of a Cleveland policeman, broke from cover in a hazel grove outside of McFarland this morning and again eluded police officers and a large posse by making a temporary get-away in the large green automobile which he stole after escaping from police here Tuesday night.

The escaping fugitive was traced as far as Edgerton by police officers, headed by Lieut. Charles Nevell of Cleveland. They are now close on his trail, while the posse still hunt in the marshy country around Lake Kegonsa.

SUSPENDS LAW TILL ELECTION IF SUFFICIENT

Bank Measure Is First To Be Attacked Through Request For Vote on Law

OTHERS TO FOLLOW

Election Law Petitions Sufficient Now, to be Filed Next Week, Frazier Says

The first petitions asking for referendum on a law enacted by the 1923 legislature were filed in the office of Secretary of State Thomas Hall shortly before noon today. Frank O. Hellstrom of Bismarck, Minn., said there were 7,439 names on the petitions for a vote on the people on section 2 of senate bill No. 375, validating the bank law settlement. The petitions will be checked up in that office before announcement is made whether they are sufficient.

R. W. Frazier, chairman of the Republican State Committee, was in Bismarck today, said that he had sufficient signatures to obtain a referendum on three election laws of the last legislature, and would file petitions with the Secretary of State Monday or Tuesday.

It is expected the Nonpartisan League executive committee will file petitions for a referendum on other laws, making a total of ten on which a vote of the people will be asked.

The last day for filing petitions to refer laws of the legislature is ten days after the last day of the session; and Deputy Secretary of State M. W. Duffy says this date is May 31. Petitions will be accepted until 5 p. m. on that day.

Section Referred.

The section which Mr. Hallstrom proposes to refer reads as follows: "Section 2. Boards of County Commissioners and the tax commissioner are hereby authorized to compromise and settle taxes assessed upon bank stock for the years 1919, 1920, 1921, which have not already been compromised, settled and paid upon the same basis of settlement upon which nearly all of the banks of the state have paid taxes for such year. The settlement of the tax on bank stock for the years 1919, 1920 and 1921, heretofore made by the commissioner and carried into effect by boards of County Commission is in all things hereby ratified and confirmed."

His committee for petitioners F. L. Hellstrom, Bismarck; Fred L. Brandt, Bismarck; A. N. Falk, Minn. Devils Lake; Herbert Hard, Fargo; Thorwald Mostad, Minn.

The supreme court held that the legislature had failed to enact a law on state bank stock for the years 1919, 1920 and 1921. The bank agreed to pay a tax on a 50 per cent assessment, which they said was same as on other similar stock, and the settlement was approved by state officials. A few banks in the state paid the tax.

Mr. Hellstrom said that he wanted to thank those who signed his petitions.

Mr. Frazier proposes to refer vote of the people in the November 1924 election, the three major election laws of the assembly; including the so-called no-party state election law, the law providing for a separate primary for the selection of candidates for United States offices, election laws were recalled a part of the I. V. A. program.

With the filing of petitions bearing the names of but 7,000 legal voters a law enacted by the legislature may be referred to vote of the people. By filing 30,000 the petition may direct a special election. In ordinary cases with less than 30,000 names filed the question is referred to voters at the next election. The Governor may call a special election.

Theodore G. Nelson, president of the I. V. A. has said he favors calling a special election in late June or July if the laws are referred. Governor Nestos has not made up his attitude in this respect.

League Referendum.

The proposed league referendum would include: the bill appropriating \$10,053.65 for the house investigation into state industries in 1921; S. P. 287, putting power of winding up affairs of banks in the supreme court and a commissioner; S. B. 250, writing the guaranty of bank deposits act, giving guaranty fund commission power over banks; S. B. 152, providing banks may merge; S. B. 204, requiring the full text of laws to be printed on ballots; referred and S. B. 285, providing for a board of managers for the state mill and elevator.

CITY NOT RESPONSIBLE

Minot, N. D., May 26.—The City of Minot cannot be held responsible for damage done to the banks of the Mouse river along property owned by individuals who may sustain losses as a result of erosion, according to R. H. Bosard, city attorney. However, he said, the city should make repairs where damage is being done to bridge abutments or streets, or in other similar instances.

This instrument was accompanied by 15 individual affidavits. The state's affidavit tended to show that 48 of those who signed the defense's papers were employees of the Putnam Lumber company.

The defense first contended that the affidavits secured by the state in seeking a change of venue were circulated around by W. H. Matthews, former county judge, now under indictment charging first degree murder. It was ascertained Matthews was indicted by the grand jury yesterday for an alleged crime committed approximately two years ago. It is charged he aided in burning a negro to death. It was learned that the case had been investigated several times and only this grand jury could secure sufficient evidence to return a true bill.

Grimson Attacked.

L. E. Wade, representative in the Florida legislature, and leading counsel for the defense, scored the newspapers and attacked the presence of C. Grimsom, assistant attorney general of North Dakota, who has been investigating the Tabert case for some time. He declared that the North Dakotan was here primarily to secure evidence in which to base a suit for damages against the Putnam Lumber company.

The legislator also attacked the Florida legislature for the attention given to the convict reform at this session.

The Weather

For Bismarck and vicinity: Partly cloudy and cooler tonight. Sunday somewhat unsettled and cooler.

For North Dakota: Partly cloudy tonight, with some showers Sunday somewhat unsettled and cooler.

General Weather Conditions

The pressure is low over the Rocky Mountain region and precipitation fell from the northern Rocky Mountain region to the north Pacific coast. Heavy precipitation occurred at St. Louis, Mo. Fair, warm weather prevails over the Plains States and maximum temperatures in North Dakota ranged from 80 to 90 degrees yesterday.

BRITISH DENY JURISDICTION OF U. S. SUPREME COURT IN BANNING RUM RATIONS FROM U. S. SHIP PORTS

Washington, May 26.—In a formal representation to the state department on the ship liquor question the British government is understood to have taken the position that American port authorities have no jurisdiction in the international law to interfere with the bringing of liquor into American waters by foreign vessels as a part of their regular supplies.

A formal communication on the subject was transmitted to Secretary Hughes today by Sir Auckland Geddes, the British ambassador.

The British position is understood to be based on the construction that the jurisdiction of American officials over foreign ship cargoes intended for transportation into the United States in no way interfered with the ship rations or supplies.

The British view, apparently in conflict with the United States supreme court position, is presented as the treasury department is formulating regulations to carry out the decision and at the same time it is understood to satisfy the position of foreign governments. There is indication today that they have found a way to accomplish this by permitting foreign ships to list the wine ration of their crews as a part of the medicinal stores allowable under the law. None of the treasury officials would comment on the action of the British but it was understood that representations had been proposed. Publication of the proposed regulations which are to go into effect June 10 will be made at the earliest possible date, it was said.

SHOWERS SEEN IN NEXT WEEK

Washington, May 26.—Weather outlook for the week beginning Monday; Upper Mississippi valley—considerable cloudiness and occasional showers first half, generally fair thereafter temperature near normal.

SLOPE ONLY COUNTY THAT CAN RECOVER

Other Claims Made Against
The State Bonding Fund
Disallowed

Although some other political subdivisions of the state lost money in the state bank stock sale, the position of Slope county to recover from the State Bonding Fund by court action, in the opinion of Harold Hopton, manager of the department, Slope county won a \$50,000 verdict against the fund in the supreme court, because of money lost by the treasurer in depositing in banks which were held to have not furnished proper bonds and which later closed.

The state law requires claim against the State Bonding Fund to be made within 60 days after discovery of a condition on which the claim is based, and no other counties complied with this, he stated. Renneville county recently made a claim of \$30,000 against the former treasurer and the bonding fund, which Mr. Hopton held should be denied because the law had not been complied with.

A conference of the state fund board is expected to be held soon to decide if any further action will be taken in the Slope county case. The fund has plenty of money to meet the claim, according to Mr. Hopton. On April 30 there was \$168,881.04 cash reported, accounts receivable were \$9,981.63; registered warrants \$7,993.86 and real estate valued at \$2,400.

NEW ROAD IS NOW COMPLETE

To Be Opened Soon—Speeders
Are Given Warning

The new concrete road between Bismarck and the new bridge will be opened for travel about June 14. The work on the road is completed, and the concrete will set for about three weeks.

With the appetite of speeders sharpened by the near-finish of the road, and the increase in the number of autos on the road during warm weather, Chief of Police Martinson today issued a request of all motorists to guide the safety of themselves and others by careful driving.

With this warning and with announcement that a copy of the traffic laws may be obtained at the police station, there will be no excuse for a speeder when arrested, he said.

Care in turning corners, testing of brakes, attention to lights and keeping within the speed limit are within the chief's admonition to motorists.

ESCAPED MURDERER AGAIN ELUDES WISCONSIN POSSE; POLICE ON HEELS

Madison, Wis., May 26.—Just a few moments ahead of his pursuers, John L. Whitfield, wanted for the killing of a Cleveland policeman, broke from cover in a haze of smoke outside of McFarland this morning and again eluded police officers and a large posse by making a temporary get-away in the large green automobile which he stole after escaping from police here Tuesday night.

SUSPENDS LAW TILL ELECTION IF SUFFICIENT

Bank Measure Is First To Be
Attacked Through Request
For Vote on Law

OTHERS TO FOLLOW

Election Law Petitions Sufficient
Now, to be Filed Next
Week, Frazier Says

The first petitions asking for referendum on a law enacted by the 1923 legislature were filed in the office of Secretary of State Thomas Hall shortly before noon today by Frank O. Hellstrom of Bismarck. Mr. Hellstrom said there were 7,190 names on his petitions for a vote of the people on section 2 of senate bill No. 375, validating the bank tax settlement. The petitions will be checked up in that office before announcement is made whether they are sufficient.

R. W. Frazier, chairman of the Republican State Committee, was in Bismarck today, said that he had sufficient signatures to obtain a referendum on three election laws of the last legislature, and would file petitions with the Secretary of State Monday or Tuesday.

It is expected the Nonpartisan League executive committee will file petitions for a referendum on six other laws, making a total of ten on which a vote of the people will be asked.

The last day for filing petitions to refer laws of the legislature is 30 days after the last day of the session, and Deputy Secretary of State M. Duffy says this date is May 31. Petitions will be accepted until 5 p. m. on that day.

Section Referred.

The section which Mr. Hellstrom proposes to refer reads as follows: "Section 2. Boards of County Commissioners and the tax commissioner are hereby authorized to compromise and settle taxes assessed upon bank stock for the years 1919, 1920, 1921, which have not already been compromised, settled and paid upon the same basis of the banks of the state have paid tax for such years. The settlement of the taxes upon bank stock for the years 1919, 1920 and 1921, heretofore made by the tax commissioner and carried into effect by boards of County Commissioners is in all things hereby ratified and confirmed."

His committee for petitioners is F. L. Hellstrom, Bismarck; Frank L. Brandt, Bismarck; A. N. Fulkerson, Devils Lake; Herbert Haard, Fargo; Thorwald Mostad, Minot.

The supreme court held that the legislature had failed to enact a tax on state bank stock for the years 1919, 1920 and 1921. The banks agreed to pay a tax on a 50 per cent assessment, which they said was the same as on other similar stock, and the settlement was approved by state officials. All but a few banks in the state paid the tax.

Mr. Hellstrom said that he wanted to thank those who signed his petitions.

Mr. Frazier proposes to refer to vote of the people in the November, 1924 election, the three major election laws of the assembly: including the so-called no-party state election law, the law providing for a separate primary for the selection of candidates for United States offices. The election laws were called a part of the I. V. A. program.

With the filing of petitions bearing the names of but 7,000 legal voters a law enacted by the legislature may be referred to vote of the people. By filing 30,000 the petitions may direct a special election. In the ordinary course with less than 30,000 names filed the question are submitted to voters at the next election. The Governor may call a special election.

Theodore G. Nelson, president of the I. V. A. has said he favors calling a special election in late June or July if the laws are referred. Governor Nestos has not made public his attitude in this respect.

League Referendum.

The proposed League referendum would include: the bill appropriating \$10,953.55 for the house investigation into state industries in 1921; S. B. 267, putting power of winding up affairs of banks in the supreme court and a commissioner; S. B. 250, revising act, giving guaranty fund commissioner power over banks; S. B. 152, providing banks may merge; S. B. 204, requiring the full text of laws to be printed on ballots when referred and S. B. 261, providing for a board of managers for the state mill and elevator.

CITY NOT RESPONSIBLE

Minot, N. D., May 26.—The City of Minot cannot be held responsible for damage done to the banks of the Mouse river along property owned by individuals who may sustain losses as a result of erosion, according to R. H. Bosard, city attorney. However, he said, the city should make repairs where damage is being done to bridge abutments or streets, or in other similar instances.

Johnnie Walker has scored another noteworthy triumph in "The Fourth Musketeer," the current attraction at the Capitol Theatre. The story was written by that master of sport writer, H. C. Witwer. In the creation of "The Fourth Musketeer," Witwer has given Johnnie Walker a vehicle that fits his virile and lovable personality like a glove. The story is rich in dramatic situations with Walker's sparkling Irish humor given full opportunity to give the audience clean, healthy laughs. "Snub" Pollard will be the star of a new series of two-reel Laugh Sensations produced by Hal Roach for Pathe.

ANNUAL PAINT FEST IS HELD

Paint Generously Spread by High School Students

The graduation exercises of the high school were followed last night by the annual commencement and execution of the painting of the town.

The energy shown last night was right compared to last year, and the damage practically none. It had been anticipated by some that there would not be a recurrence of last year's episode, school authorities having asked that the annual celebration be allowed to slip by.

The business consisted principally in printing the letters "O. K." on business firms and other words on just a few, and doling out paint on sidewalks and sides of buildings.

Chief of Police Martinson, had several special policemen, said that the boys at the request of the police stored the "O. K." signs off the store windows. The high school building's part in the celebration, he said, consisted in furnishing the background for the capital cannon which was dragged to the school yard. The jumble of wagons, etc., which were found on the school yard last year, were missing.

About 75 boys gave vent to their feelings of celebration with the end of the school year.

Poppy Sale in Full Swing Today

The second day of the poppy drive opened this morning with the boys of the city helping in the covering of the city. While the sale of poppies yesterday proved to be highly successful, it was expected that this would be even a more successful day.

The citizens are responding generously, it was reported. The poppies on sale are those made by disabled veterans in the various hospitals all over the United States and the funds obtained from the drive will be used for the benefit of the disabled veterans.

Those helping in the selling of poppies yesterday afternoon were: Marie Cordner, Agnes Hultberg, Dorothy Jacobson, Anna Joachim, Velma Nupen, Gwendolin Jensen, Dorothy Keller, Jane Byrne and Velma Whiteaker.

Those helping this morning were: Lee Smith, David Hollingsworth, Thomas Parker, Oliver Koppenhagen, Frank Ackermann, Arthur Cayou, Ford Le Barron, Mervin Clough, Sidney Hoffman, Marie Cordner, Winifred Halfyard, Marjorie Lahti, and Emma Zvortist.

In charge of the campaign are Mrs. Ray Stair, general chairman, Mrs. Henry Murphy, Mrs. Oscar Selvig, Mrs. Jessie Beck, Mrs. Ferris Cordner, and Mrs. E. F. Trepp.

The sale will continue through Tuesday of next week.

Register For Bible School Saturday

Plans for a house to house canvass for the purpose of registering pupils for the vacation school to begin Monday morning have been completed. All persons who have been engaged for the canvass are asked to meet Mrs. Hanson, director of the registration, at the Baptist Church Saturday morning at nine o'clock. These volunteers will register the children from the kindergarten to the adult department including high school pupils. A special class has been arranged for young people desiring to take a course. Mrs. Crawford will be in charge of that class.

Mothers are asked to see that the children bring the cards of registration to the Will School Monday. These cards will admit the pupils at once to the respective grades in which they will become enrolled for the term. In this way we shall gain one day and be able to begin the work immediately.

With the few days between the close of the public school and the opening of the Religious school, the children ought to be rested and eager for the change in work which is done in the vacation school. A complete program is ready. Teachers, play directors and equipment are in readiness for the twelve days of what is expected to be the best vacation Bible school session thus far in the four years of its history.

Many Friends Attend Funeral

A large crowd attended the funeral rites held for W. E. Rawlings at Sterling yesterday afternoon at the church of that town. Dr. H. C. Postlethwaite of Bismarck officiated. The funeral bier was covered with many beautiful bouquets and wreaths which were tokens of the esteem felt by neighbors and friends for the deceased. Acting as pallbearers were neighbors of the deceased.

INJUNCTION IS DENIED IN DISTRICT COURT

Application of Fred A. Boib against the Hughes Electric Company for a restraining order to prevent shutting off or tampering with current during pendency of an action asking damages for alleged disconnection in furnishing electric current and in an alleged attempt to force him to pay during the middle of a month, was heard by District Judge Jansoni today.

The defense presented an affidavit claiming Boib had not been discriminated against and would have the same treatment as other patrons.

Judge Jansoni held that under pleadings before him he could not determine whether there was fair or unfair action, that until the supreme court decided the question of jurisdiction in public utility matters and as long as affirmative showing was not made that the plaintiff would not have fair treatment, he would not grant an order.

The plaintiff's attorney said that he was satisfied if the defendant would give merely the same treatment as that accorded other patrons.

Conclude W. C. T. U. Convention Here

The fourteenth annual convention of the Women's Christian Temperance Union of the eleventh district was held in the McCabe Methodist church at Bismarck, May 23, 1923. It was very successful and well attended. All but three of the unions were represented, and each gave a report of past work.

The program was carried out as prepared. The election of officers took place with the following results: President, Mrs. Ella C. Bolser, Bismarck; vice president, Mrs. Sara West Ankenman; corresponding secretary, Mrs. C. W. Smith, Bismarck; recording secretary, Mrs. E. A. Hall, Driscoll; treasurer, Mrs. C. D. Rodgers, McKenzie; honorary president, Mrs. L. E. Heaton, Bismarck. Miss Grace Leigh Scott, national worker, was a great inspiration to the workers and brought a message of vital interest to all who heard her.

The address at the evening session on "A White Life," included her experiences among the soldiers in France.

While there, a new sense of woman's opportunity was awakened and upon her return she studied the social problems at home. Miss Scott is a talented vocalist and closed her address with a song.

The members of the Bismarck union entertained the visiting delegates at a six o'clock dinner at the Grand Pacific.

An evidence of the interest of the Loyal Temperance Legion work was shown, when during the district convention of the W. C. T. U., about thirty children of the Legion under the direction of their leader, Mrs. J. W. Deemy gave a demonstration of the work they are doing.

They gave a program of songs, recitations, rally cries, and a play, "Watch Us Grow."

It was inspiring to hear the children sing "Prohibition Is Here to Stay in the U. S. A." Mrs. C. W. Smith was reappointed district superintendent of the L. T. L.

FURTHER AID BY WAR FINANCE TO FARMERS OF NATION PREDICTED

An encouraging estimate of business conditions and a promise of further help by the war finance corporation were contained in a statement made today by Fred Starek, acting head of the corporation, after a conference with President Harding.

Mr. Starek declared that despite the impression in many quarters the corporation was making no effort to force liquidation of the loans of many millions of dollars it has outstanding and predicted that congress would be asked at its next session to pass additional legislation for the relief of cattle interests in the southwest whose herds have been taken into Mexico for grazing. He

asserted that in the main, however, the remedy for present grievances lies in sensible thinking and hard work rather than in legislation.

A managing director of the finance corporation Mr. Starek recently made a tour of the south and west, traveling many thousands of miles by airplane and inquiring into the financial condition of many industries. He reported the result of this canvass today and also discussed some features of the political situation and of Mr. Harding's forthcoming trip across the continent and to Alaska. He said afterward that the president intended to "discuss every vital topic frankly and courageously" in the speeches he will make in western cities.

Depositions of the former bank president will also be taken in the suit for about a third of a million dollars against C. D. Griffith, of Sleepy Eye and Minneapolis, Minn., former president of the Mohall bank, who, the receiver asserts, made himself liable under the laws of North Dakota for alleged failure to supervise the business of the bank while he was president.

On Monday the deposition of Peters was brought back from the federal penitentiary and for days has worked with Sherwood S. Sleeper, former owner of the bank, and W. H. McIntosh, receiver, in untangling the deals as disclosed on the books of the defunct bank.

Gradually the threads of testimony have been put together until today it is understood that the bank is in a position to become aggressor in recovering a portion of the assets of the bank.

J. C. Peters, Brought Back From Leavenworth Prison Testifies

Mohall, N. D., May 26.—Affairs of the defunct Mohall State bank, the little Renville county institution looted of approximately \$1,000,000, took a sensational turn, when J. C. Peters, former president brought back from Leavenworth penitentiary testified that the officers of the bank conspired with outsiders close to the institution to accept paper known to be worthless, gradually absorbing the assets of the bank.

The deposition taken was one of a series in which it is stated that Peters will "come clean" in laying bare every deal which lead up to the wrecking of the institution. Upon the testimony to be given by Peters will be based actions for the recovery of funds aggregating over a third of a million dollars.

Deposition taken yesterday was in the action of the bank against Will Clifford, Clifford Bros., and Clifford & Bryans on notes of those parties held by the bank. The defendants in their answers offered counter claims in the way of large commissions for alleged land deals. It was these counter claims which the deposition of Peters was aimed to shatter.

In charge of Major Pickens, Peters was brought back from the federal penitentiary and for days has worked with Sherwood S. Sleeper, former owner of the bank, and W. H. McIntosh, receiver, in untangling the deals as disclosed on the books of the defunct bank.

FRAZIER TO TOUR GOPHER STATE IN JUNE

Lynn J. Frazier, United States senator from North Dakota, will campaign in the interests of the Farmer-Labor party in Minnesota during the primary campaign, it has been announced.

Senator Frazier will tour the state the week preceding election day, June 18, and speak at nonpartisan league rallies. He does not plan to take sides, it was said, because of the fight over the farmer-labor nomination.

Magnus Johnson who has filed as Farmer-Labor candidate declared in a statement that he could not refuse the urgent requests of organization to which he owed allegiance to enter the field although he had hesitated to file for the senatorship because his previous participation had seriously interfered with his personal affairs.

HUGE FOREST FIRE RAGED

Twenty cameras, the largest number ever trained on one scene, were employed by Reginald Barker to record the spectacular forest fire which was staged especially for the big climax in "Hearts Aflame," Reginald Barker's production, released by Metro, at the Capitol Theater Monday, Tuesday and Wednesday.

Working under the supervision of Percy Hilburn, chief photographer on the production, the cameramen were stationed in pairs at various points along the twenty-acre stretch of pines set afire for the picture, many of them being so close to the flames that they had to have sheet from blinds to protect the cameras from the fire. In spite of this provision, two of the cameramen were put out of commission entirely by the terrific blast and intense heat, and five of the cameramen were so severely burned in the experience that they had to report for medical treatment when the scene was completed.

Headed by Anna Q. Nilsson and Frank Keenan, the cast embraced such notables as Richard Headrick, Russell Simpson, Richard Tucker, Stanton Heck, Lee Shumway, Irene Hunt, John Dill, Ralph Cloninger, Martha Mattox, Walt Whitman and Joan Standings. Craig Ward, the leading man, is a "find" of Reginald Barker's, whose excellent work in this picture marks him as one of the coming favorites of the screen. J. G. Hawks and L. G. Bigby prepared the scenario from the famous novel, "Timber," by Harold Titus. The photoplay was produced for Louis B. Mayer.

G. N. TO SPEND SUMS IN FARGO

Fargo, May 26.—"There is no question that the officials of the Great Northern anticipate and are preparing for a tremendous future development in Fargo."

This was the statement of W. S. Stevenson of Minot, engineer in charge of the big construction program which was begun in Fargo this week.

"I have not been told that by the higher officials of the road," he said, "but it is self evident from a study of the plans, and from the preparations made here, that the work this is just the groundwork for much more extensive development in the future."

"I am convinced that the Great Northern officials realize the permanency of the coming business development of Fargo and are preparing for a great expansion here."

SITUATION IN NEAR EAST HELD CRITICAL

Lausanne, May 26.—The situation facing the Near East conference continued to be critical. All the delegates admitted today that the question of peace or war in the Near East depends on the nature of the Turkish government's reply to the Greek offer of mediation in the Karagach Turkey in place of cash indemnity demanded by the latter.

The Greek offer, it is learned, also includes a short stretch of railroad leading to the Bulgarian frontier.

The European powers through their representatives here are exerting the greatest pressure on both the Turks and Greeks to prevent hasty action.

\$125 FOR EACH STUDENT, COST

Budget to Maintain Institution For a Year Is Approved

Fargo, N. D., May 26.—It costs the state of North Dakota approximately \$125 for each student at the North Dakota Agricultural college to maintain the college, according to figures in the budget for expenditures during the coming year which has just been approved by the state board of administration.

Although the college will expend the money available this year at the rate of \$250 a student, practically half of this amount is obtained from fees, federal aid, and interest on land grants, according to Dr. John Lee Coulter, president of the college.

Of the somewhat more than \$800,000 available for next year, beginning July 1, 1923, about \$300,000 will be devoted to college salaries, maintenance of class rooms, summer schools, and similar items. For general administration \$25,000 is budgeted, for the Experiment station located at the college \$153,800; for the Extension division, which includes the funds available for county and state extension agents, \$164,000. For improvements, repairs, new equipment, the completion of the home economics practice cottage, and an addition to the Little Country Theater, a total of \$42,500 has been budgeted. For general maintenance of the college proper \$412,240 is available, of which the state provides approximately half by direct appropriation and value of the buildings and equipment of the North Dakota Agricultural college is placed by Dr. Coulter at \$2,067,374.

ELKS MEMBERS WILL PARADE

All Urged to Join Lodge in Body on Memorial Day

The Elks lodge members will join the Memorial Day parade in a body. Every Elk is urged by the officers to be in the line of March.

"The order of Elks is distinctive American—so is Memorial Day," says a letter from the committee of officers. "It is the one day set apart to commemorate the deeds of valor performed by our soldiers in the preservation and defense of what our flag represents—the boys who were content to sleep the last sleep at Gettysburg, at San Juan Hill and in Flanders Fields that this nation might live."

"The Memorial Day parade will form a second and Thayer streets at 2:30 p. m. and all Elks are requested to meet at the Elks Hall promptly at 2:15 p. m., from where we will go in a body to our place in the parade line, which will be just behind the Boy Scouts, led by St. Mary's Band."

The Elks band will lead the parade. The appeal to all Elks is signed by P. K. Fields, national delegate; Bob Webb, Scott Cameron, L. K. Thompson, and Obert A. Olson.

UNUSUALLY COMPLETE IS OVERLAND RED BIRD

Nothing has been omitted from the list of equipment made standard on the new Overland Red Bird, but what is necessary and convenient for the motorist who demands something out of the ordinary and who at the same time does not want to plunge into reckless extravagance in having his ideal satisfied.

Included in the equipment are bumpers, front and rear, wind shield wiper, scuff plates, door grips, spare rim and tire carrier, besides the usual dash light, speedometer and other accessories.

Glistening nickel radiator with bar cap, nickel head lamps, wind shield stanchions, outside door handles, scuff plates and back curtain window frame are admirably set off by a khaki top with red binding and welts.

Red Spanish grained upholstery leaves a pleasant impression when blended with the superb and rich gleaming Mandalay Maroon, a shade that is exciting much interesting comment, according to the eye as it does a delightful sense of brightness, artistically subdued to a tone of agreeable refinement.

LOWER RATE IS ORDERED

State to Save on Freight Rates to Insane Hospital

A new basis of freight rates on the Midland Continental railroad, operating from Jamestown to Edgely, is ordered by the state railroad commission, in deciding the case brought by the state board of administration against several carriers, seeking repatriation because of alleged excessive freight rates on coal from Jamestown to the state insane hospital and asking a lower basis.

The commission, in an opinion by Commissioner McDonnell, holds that the present rate of the Midland Continental for the three-mile haul to the insane hospital is excessive. It approves as a basis of division on coal hauled over other railroads, and the Midland Continental, that the roads may pro rate the freight rate, with the shorter line being allowed a 25 percent maximum charge.

The carriers are ordered to publish new tariffs, on or before July 1, with the new rates, and to agree on a division of the revenue themselves.

Failing, the railroad commission will issue a tariff.

The Midland Continental, the decision says, had agreed to accept joint through rates, but proposed that they receive 33 1-3 percent of the amount restricted to their local rate as a maximum, and later agreed to accept pro rata basis.

It was agreed by parties to the suit that the state board could not gain repatriation for alleged excessive tariffs in the past, the decision states. The proposed new rates, however, will considerably lower to the state the cost of transporting coal to the insane hospital at Jamestown, according to officials.

GO LENGTHS TO MAKE CERTAIN OF QUALITY

The lengths to which the Maxwell Motor Corporation has gone, to make certain that its automobiles are built in the most efficient way, are well illustrated in a recent announcement received by W. P. Lomas, local Maxwell dealer, stating that a salt water well has just been drilled at the Detroit plants of the company and is now in use. The water from it assures improved heat-treating of the necessary materials entering Maxwell cars.

"For all intensive heat-treating purposes test, have proved that salt water is more desirable than fresh," says Mr. Lomas. "This fact, as well as the need for cold water that would remain at a constant temperature, prompted the corporation to drill the well, after advice from geologists that salt water underlies a considerable section about Detroit."

"Natural salt water, of the exact solution and temperature wanted was struck at 851 feet below the surface. Its constant temperature is 55 degrees Fahrenheit, the correct coolness for best heat-treating."

"This well enables Maxwell to eliminate the daily purchase of 4,000 of ice during the summer, and also that of a considerable quantity of salt to make brine. Estimated costs of getting the water to the surface was less than half of the cost of city water to which must be added other costs because it is fresh."

"The well will yield a far greater supply of salt water than is necessary as yet. Its yearly yield is estimated at 31,200,000 gallons. Thirty six thousand gallons are now being consumed per ten hour working day."

6,600 FORDS IN DAY, IS RECORD

Daily production of Ford Cars and Trucks went over the 6,600 mark on Wednesday, May 24, it is just announced through The Ford News.

The production on that day was 6,615, exceeding by 25 the last highest day, Friday, May 4th when a record of 6,590 was established.

The twenty-eight assembly plants of the Ford Motor Company throughout the country operate on an eight-hour day basis, and the turning out of 6,615 completed Cars and Trucks in a day means that they were run off the assembly lines at the rate of one every four seconds.

To make this enormous output possible, the tremendous manufacturing facilities of the company, embracing the great Highland Park and River Rouge plants and other factory units, are operating on a twenty-four hour day of three eight hour working shifts employing more than 100,000 men.

Ford high quality standards are constantly maintained in every operation entering into the construction of these popular cars.

HAS PITY FOR MRS. LEEDS

Mrs. Anne Stillman Hopes She Wins Case From Husband

New York, May 26.—Mrs. Anne U. Stillman hopes that Mrs. Florence Leeds will win in her controversy with James A. Stillman for the support of the son born to Mr. Stillman and Mrs. Leeds, says a dispatch to the New York Times from Quebec. For Mrs. Leeds, the dispatch adds, Mrs. Stillman had "nothing more than pity."

Mrs. Stillman added a sensational angle to the case by charging that Fred A. Beauvais, the Indian guide, named as co-respondent by Mr. Stillman and charged with the paternity of Guy Stillman, had been annoying her. Her attorney has warned Beauvais to desist, he declares, and added that Forder McCormick, son of Harold McCormick of Chicago, a friend of the family, is remaining at the lodge with her and her children as a protector.

Mrs. Stillman said she knew that Mrs. Leeds was not the cause of her rupture with her husband and that

NORTH DAKOTA SELL OIL LANDS

Fargo, May 26.—A syndicate of Fargo, Jamestown and New Rockford business men has recently disposed of a tract of oil land in the Cat Creek district of Montana to the Standard Oil Co. of California, according to an announcement made in Fargo yesterday.

This is only a part of the syndicate holding in the famous Montana oil region, it was said. There is a well of 500 barrels capacity on the land sold to the Standard Oil on which the North Dakota syndicate receives 30 percent royalty. The cash consideration was said to be a very large sum.

The Fargo men interested in the syndicate are A. W. Fowler, Alex. Stern, E. J. Schenberg, B. L. Kenting, Sam Stern, Dan O'Neil and T. J. Powers.

FRAZIER TO TOUR GOPHER STATE IN JUNE

Lynn J. Frazier, United States senator from North Dakota, will campaign in the interests of the Farmer-Labor party in Minnesota during the primary campaign, it has been announced.

Senator Frazier will tour the state the week preceding election day, June 18, and speak at nonpartisan league rallies. He does not plan to take sides, it was said, because of the fight over the farmer-labor nomination.

Magnus Johnson who has filed as Farmer-Labor candidate declared in a statement that he could not refuse the urgent requests of organization to which he owed allegiance to enter the field although he had hesitated to file for the senatorship because his previous participation had seriously interfered with his personal affairs.

HUGE FOREST FIRE RAGED

Twenty cameras, the largest number ever trained on one scene, were employed by Reginald Barker to record the spectacular forest fire which was staged especially for the big climax in "Hearts Aflame," Reginald Barker's production, released by Metro, at the Capitol Theater Monday, Tuesday and Wednesday.

Working under the supervision of Percy Hilburn, chief photographer on the production, the cameramen were stationed in pairs at various points along the twenty-acre stretch of pines set afire for the picture, many of them being so close to the flames that they had to have sheet iron blinds to protect the cameras from the fire. In spite of this provision, two of the cameras were put out of commission entirely by the terrific blaze and intense heat, and five of the cameramen were so severely burned in the experience that they had to report for medical treatment when the scene was completed.

Headed by Anna Q. Nilsson and Frank Keenan, the cast embraces such notables as Richard Headrick, Russell Simpson, Richard Tucker, Stanton Heck, Lee Shumway, Irene Hunt, John Dill, Ralph Cloninger, Martha Maitor, Walt Whitman and Joan Standings Craig Ward, the leading man, is a "find" of Reginald Barker's, whose excellent work in this picture marks him as one of the coming favorites of the screen. J. G. Hawks and L. G. Rigby prepared the scenario from the famous novel, "Timber," by Harold Titus. The photoplay was produced by Louis B. Mayer.

G. N. TO SPEND SUMS IN FARGO

Fargo, May 26.—"There is no question that the officials of the Great Northern anticipate and are preparing for a tremendous future development in Fargo."

This was the statement of W. r. Stevenson of Minot, engineer in charge of the big construction program which was begun in Fargo this week.

"I have not been told that by the higher officials of the road," he said, "but it is self evident from a study of the plans, and from the preparation made here. The work this year is just the groundwork for much more extensive development in the future."

"I am convinced that the Great Northern officials realize the permanency of the coming business development of Fargo and are preparing for a great expansion here."

SITUATION IN NEAR EAST HELD CRITICAL

War or Peace Depends Largely
Upon Answer Made
By The Turks

Lausanne, May 26.—The situation facing the Near East conference continues extremely critical. All the delegates admitted today that the question of peace or war in the Near East depends on the nature of the Turkish government's reply to the Greek offer ceding the town of Karagath to Turkey in place of cash indemnity demanded by the latter.

The Greek offer, it is learned, also includes a short stretch of railroad leading to the Bulgarian frontier.

The European powers through their representatives here are exerting their greatest pressure on both the Turks and Greeks to prevent hasty action.

\$125 FOR EACH STUDENT, COST

Budget to Maintain Institution
For a Year Is
Approved

Fargo, N. D., May 26.—It costs the state of North Dakota approximately \$125 for each student at the North Dakota Agricultural college to maintain the college, according to figures in the budget for expenditures during the coming year which has just been approved by the state board of administration.

Although the college will expend the money available this year at the rate of \$250 a student, practically half of this amount is obtained from fees, federal aid, and interest on land grants, according to Dr. John Lee Coulter, president of the college.

Of the somewhat more than \$800,000 available for next year, beginning July 1, 1923, about \$300,000 will be devoted to college salaries, maintenance of class rooms, summer schools, and similar items. For general administration \$250,000 is budgeted, for the Experiment station located at the college \$153,800; for the Extension division, which includes the funds available for county and state extension agents, \$164,000. For improvements, repairs, new equipment, the completion of the home economics practice cottage, and an addition to the Little Country Theater, a total of \$42,500 has been budgeted. For general maintenance of the college proper \$412,240 is available, of which the state provides approximately half by direct appropriation.

The gross replacement value of the buildings and equipment of the North Dakota Agricultural college is placed by Dr. Coulter at \$2,067,374.

ELKS MEMBERS WILL PARADE

All Urged to Join Lodge in
Body on Memorial Day

The Elks lodge members will join the Memorial Day parade in a body. Every Elk is urged by the officers to be in the line of March.

"The order of Elks is distinctive—American—so is Memorial Day," says a letter from the committee of officers. "It is the one day set apart to commemorate the deeds of valor performed by our soldiers in the preservation and defense of what our flag represents—the boys who were content to sleep the last sleep at Gettysburg, at San Juan Hill and in Flanders Fields that this nation might live."

The Memorial Day parade will form at Second and Thayer streets at 2:30 p. m. and all Elks are requested to meet at the Elks Hall promptly at 2:15 p. m., from where we will go in a body to our place in the parade line, which will be just behind the Boy Scouts, led by St. Mary's Band."

The Elks band will lead the parade. The appeal to all Elks is signed by P. R. Fields, national delegate; Alex Rosen, exalted ruler; Bob Webb, Scott Cameron, L. K. Thompson, and Overt A. Olson.

UNUSUALLY COMPLETE IS OVERLAND RED BIRD

Nothing has been omitted from the list of equipment made standard on the new Overland Red Bird, but what is necessary and convenient for the motorist who demands something out of the ordinary and who at the same time does not want to plunge into reckless extravagance in having his ideal satisfied.

Included in the equipment are bumpers, front and rear, wind shield wiper, scuff plates, door grips, spare rim and tire carrier, besides the usual dash light, speedometer and other accessories.

LOWER RATE IS ORDERED

State to Save on Freight
Rates to Insane Hospital

A new basis of freight rates on the Midland Continental railroad, operating from Jamestown to Edgely, is ordered by the state railroad commission in deciding the case brought by the state board of administration against several carriers, seeking reparation because of alleged excessive freight rates on coal from Jamestown to the state insane hospital and asking a lower basis.

The commission, in an opinion by Commissioner McDonnell, holds that the present rate of the Midland Continental for the three-mile haul to the insane hospital is excessive. It approves as a basis of division on coal hauled over other railroads, and the Midland Continental, that the roads may pro-rate the freight rate, with the shorter line being allowed a 25 percent maximum charge.

The carriers are ordered to publish new tariffs, on or before July 1, with the new rates, and to agree on a division of the revenue themselves. Failing, the railroad commission will issue a tariff.

The Midland Continental, the decision says, had agreed to accept joint through rates, but proposed that they receive 33 1/3 percent of the amount restricted to their local rate as a maximum, and later agreed to accept a pro-rata basis.

It was agreed by parties to the suit that the state board could not gain reparation for alleged excessive tariffs in the past, the decision states. The proposed new rates, however, will considerably lower to the state the cost of transporting coal to the insane hospital at Jamestown, according to officials.

GO LENGTHS TO MAKE CERTAIN OF QUALITY

The lengths to which the Maxwell Motor Corporation has gone, to make certain that its automobiles are built in the most efficient way, are well illustrated in a recent announcement received by W. P. Lomas, local Maxwell dealer, stating that a salt water well has just been drilled at the Detroit plants of the company and is now in use. The water from it assures improved heat-treating of the necessary materials entering Maxwell cars.

"For all intensive heat-treating purposes tests have proved that salt water is more desirable than fresh," says Mr. Lomas. "This fact, as well as the need for cold water that would remain at a constant temperature, prompted the corporation to drill the well, after advice from geologists that salt water underlies a considerable section about Detroit."

"Natural salt water, of the exact solution and temperature wanted was struck at 851 feet below the surface. Its constant temperature is 55 degrees Fahrenheit, the correct coolness for best heat-treating."

"This well enables Maxwell to eliminate the daily purchase of 4,000 of ice during the summer, and also that of a considerable quantity of salt to make brine. Estimated costs of getting the water to the surface was less than half of those of city water to which must be added other costs because it is fresh."

"The well will yield a far greater supply of salt water than is necessary as yet. Its yearly capacity is estimated at 31,200,000 gallons. Thirty six thousand gallons are now being consumed per ten hour working day."

6,600 FORDS IN DAY, IS RECORD

Daily production of Ford Cars and Trucks went over the 6,600 mark on Wednesday, May 24, it is just announced through The Ford News.

The production on that day was 6,615, exceeding by 25 the last highest day, Friday, May 4th when a record of 6,590 was established.

The twenty-eight assembly plants of the Ford Motor Company throughout the country operate on an eight-hour day basis, and the turning out of 6,615 completed Cars and Trucks in a day means that they were run off the assembly lines at the rate of one every four seconds.

To make this enormous output possible, the tremendous manufacturing facilities of the company, embracing the great Highland Park and River Rouge plants and other factory units, are operating on a twenty-four hour day of three eight hour working shifts employing more than 100,000 men.

Ford high quality standards are consistently maintained in every operation entering into the construction of these popular cars.

PARK IMPROVEMENT PLANNED
Abercrombie, N. D., May 26.—Improvement of the park within the town limits here, marking the site of the historic Fort Abercrombie, is planned by local citizens. The area in the future will be the headquarters

of the Richland County Old Settlers association.

On June 14 the Abercrombie Park board, assisted by the Royal Neighbors lodge, will give a program, dance and luncheon, the proceeds to go toward the park fund. To get the year appropriation offered by the state for upkeep of the park an equal amount must be contributed at home, it is stated.

Last year several hundred trees were planted in the park. This year an up-to-date tourist camp will be fitted out in the park and a building will be erected in or moved to the park.

NORTH DAKOTA SELL OIL LANDS

Fargo, May 26.—A syndicate of Fargo, Jamestown and New Rockford business men has recently disposed of a tract of oil land in the Cat Creek district of Montana to the Standard Oil Co. of California, according to an announcement made in Fargo yesterday. This is only a part of the syndicates holding in the famous Montana oil region, it was said. There is a well of 500 barrels capacity on the land sold to the Standard Oil on which the North Dakota syndicate receives 30 percent royalty. The cash consideration was said to be a very large sum.

The Fargo men interested in this syndicate are A. W. Fowler, Alex Stern, E. J. Schenberger, B. L. Keating, Sam Stern, Dan O'Neil and T. F. Powers.

HAS PITY FOR MRS. LEEDS

Mrs. Anne Stillman Hopes
She Wins Case From
Husband

New York, May 26.—Mrs. Anne U. Stillman hopes that Mrs. Florence Leeds will win in her controversy with James A. Stillman for the support of the son born to Mr. Stillman and Mrs. Leeds, says a dispatch to the New York Times from Quebec. For Mrs. Leeds, the dispatch adds, Mrs. Stillman had "nothing more than pity."

Mrs. Stillman added a sensational angle to the case by charging that Fred A. Beauvais, the Indian guide, named as co-respondent by Mr. Stillman and charged with the paternity of Guy Stillman, had been annoying her. Her attorney has warned Beauvais to desist, he declares, and added that Folder McCormick, son of Harold McCormick of Chicago, a friend of the family, is remaining at the lodge with her and her children as a protector.

Mrs. Stillman said she knew that Mrs. Leeds was not the cause of her rupture with her husband and that

divorce and other suits which grew out of it, but that another woman was responsible.

She said Mrs. Leeds had been replaced in Mr. Stillman's attention by a New York society woman whom she has heard he may marry if he is divorced.

"I did not make a direct offer to Mrs. Leeds to adopt Jay (Mrs. Leeds' son), she said, but would be glad to make such an offer any day. He is my son's half-brother and if Mr. Stillman does not accept any responsibility for him we do. If Jay Leeds' father is not a gentleman, my son is a gentleman."

SAYS TURKEY IS HARMLESS

Can't Afford to Keep Them
Now, Envoy Indicates

Chicago, May 26.—Turkey now is harmless. It is all Turkish men can do to get along with one wife. So says Dr. Fuad Bey, member of the Turkish Nationalist assembly and former minister of health and public works of Turkey, who arrived here yesterday.

"I recently traveled all over Turkey

and nowhere did I find a man who had more than one wife," he said.

CONSPIRED TO DEFRAUD, BANK HEAD ADMITS

J. C. Peters, Brought Back From Leavenworth Prison Testifies

Mohall, N. D., May 26.—Affairs of the defunct Mohall State bank, the little Renville county institution looted of approximately \$1,000,000, took a sensational turn, when J. C. Peters, former president brought back from Leavenworth penitentiary testified that the officers of the bank conspired with outsiders close to the institution to accept paper known to be worthless, gradually absorbing the assets of the bank. The deposition taken was one of a series in which it is stated that Peters will "come clean" in laying bare every deal which lead up to the wrecking of the institution. Upon the testimony to be given by Peters will be based actions for the recovery of funds aggregating over a third of a million dollars.

Deposition taken yesterday was in the action of the bank against Will Clifford, Clifford Bros., and Clifford & Bryans on notes of those parties held by the bank. The defendants in their answers offered counter claims in the way of large commissions for alleged land deals. It was these counter claims which the deposition of Peters was aimed to shatter.

In charge of Major Pickens, Peters was brought back from the federal penitentiary and for days has worked with Sherwood S. Sleeper, former owner of the bank, and W. E. McIntosh, receiver, in unearthing the deals as disclosed on the books of the defunct bank. Gradually the threads of testimony have been put together until today it is understood that the bank is in a position to become aggressor in recovering a portion of the assets of the bank.

On Monday the deposition of Peters will be taken in suits against bonding companies involving nearly \$25,000.

Depositions of the former bank president will also be taken in the suit for about a third of a million dollars against C. D. Griffith, of Sleepy Eye and Minneapolis, Minn., former president of the Mohall bank, who, the receiver asserts, made himself liable under the laws of North Dakota for alleged failure to supervise the business of the bank while he was president.

SUPPORT THE COMMISSION

Next Monday evening bids will be opened for a new water system for Bismarck. Utilization of the present plant is to be considered also. It should be understood that the commission is not as yet sold on any plan. Each member approaches the issue with an open mind.

But it is essential that the city commission receive the best advice and support of the people generally. Their task is a hard one and there is every evidence that they are seeking to solve this important and vital issue in a sane manner.

The presence of a number of the businessmen at the meeting Monday evening would be encouraging and indicative of a proper interest in one of the greatest civic problems Bismarck probably has had to solve in many years.

There should be no factionalism or parish politics in the settlement of the water controversy—an issue that has divided the city and militated against progress. The decisive vote at the bond issue; the election of John Larson and John French by large majorities and public opinion generally reflect a most insistent demand that the water issue be settled RIGHT and for all time.

The selfish interests of any utility, the personal greed or graft of any special clique should not stand in the way of an honest and efficient settlement of this problem where the health of the citizens and the future development of the best little city in the world are at stake.

Members of the commission state they intend to move slowly. They have announced that it is not their intention to confiscate any man's property—but to deal fairly and above board with each and every interest involved. There can be no speedy nor effective solution along any other line.

Attend the meeting next Monday evening and lend all possible assistance to the Commission in settling the vital issues involved.

A CITIZENS' COMMITTEE

Realizing that the problem involves a great outlay of the taxpayers money, the city commission has deemed it wise to appoint a special citizens' committee to cooperate, aid and advise the commissioners in the water controversy. It would seem that a wise selection has been made.

P. C. Remington is representative of the banking interests of the city and should be in a position to advise wisely upon financial matters involved. As representative of the retail interests is A. W. Lucas, a former mayor, and conversant with the various phases of the water works controversy. Julius Sells is a manufacturer and distributor and vitally interested in the proper settlement of the issue. He has taken an active part in the past in this matter. The professional men are well represented in Dr. Ramstad. It is the better part of wisdom to have a man skilled in medical science who can give valuable advice especially upon the matter of filtration and other problems that affect the general health of the community. H. J. Duemeland for the jobbing interests is a happy choice too. He is president of the Bismarck Rotary club and representative generally of the business interests.

This committee should be able to aid materially in the settlement of the big problem before the commission.

SAVING THE PARKS

The fight to keep the national parks free from exploitation by private interests will be continued in the present session of Congress.

Water power interests in the West are determined to convert some of the great streams, scenic falls and forest areas in various national park properties to their own private use in developing light and power projects. It is said that many of these proposed schemes would utterly destroy regions of surpassing natural beauty rightfully belonging to the people as playgrounds.

The secretary of the National Parks Association suggests that if people would translate the proposed projects into terms of the parks near home, they would appreciate better the danger confronting the national parks. Nobody wants the village greens of the smaller towns or the beautiful parks of the larger towns laid waste, their trees cut down, their streams and falls deflected and their open spaces filled with power plants so that private concerns may profit. This is just what the water power interests propose to do in the national reservations.

JEWS

Did you ever know a Jewish farmer? There are 75,000 of them in the United States, according to the Jewish Agricultural Society.

These 75,000 till farms totaling a million acres, value 100 million dollars.

In 1900, only 216 Jewish farmers in America. Their gradual swing toward farming is a curious economic development. They will make good at farming as they make good at every other industry they tackle. The Jew is traditionally a trader, not a farmer, the result of centuries of persecution, driven from pillar to post.

They, not the meek, are inheriting the earth.

DIPHTHERIA

The diphtheria death rate has been cut in half in the last three years by using the Schick Test, announces Dr. Hermann M. Briggs, the N. Y. commissioner of health.

So another dread disease is getting under control, its virtual elimination only a matter of time and sense. One after the other, science conquers the germ maladies. Yellow fever is as good as gone. Smallpox is becoming rare.

Pasteur, father of modern bacteriology, declared it "without the power of man to cause the parasite diseases to disappear from the surface of the earth." People laughed at him—then. Now it begins to look as if he were right.

PEOPLE'S FORUM

The North Dakota girls who are attending Northwestern university state in a letter written to the Bismarck Tribune that they resent much of the publicity given to the Mount case. They declare that many of the reports in the Chicago papers were not based upon facts. Their letter to the Tribune reads as follows:

Dear Sir:

We are Northwestern university students from North Dakota. Fearing that the people of the state might have been led to believe the propaganda which has spread over the country against Northwestern university in the past few weeks, we are sending you a statement of the Mount case, parts of which you may find desirable to reprint in order to give an impartial view on the subject.

We would be very grateful if you would consider this. We are

SPOILING THE ACT

CONTINUING OF LETTER FROM BEATRICE GRIMSHAW TO SALLY AHTERTON

I don't think you will be surprised, Sally dear, when I tell you that because of your letter and Leslie's letter I refused a proposal of marriage to the man who took me morning yesterday.

I told him I was not yet sure that we loved each other enough. Of course he protested that he loved me enough and that he would make me love him. Men are so sure of their ability in this direction.

As I could not explain to him that two of my friends had just come to me with very perplexing and disquieting experiences in married life, which made me "stop, look and listen," he finally let the matter rest by saying that in a few months he would ask me again.

I hope by the time you receive this letter, dear Sally, that things will have smoothed out for you. I believe most thoroughly if you could adjust yourself to Sam, so that you could be good friends with him, things would straighten out.

I don't believe, Sally dear, that you and Sam have ever been good friends. All your letters and what you have told me lead me to think this.

A man and woman, you know, can love each other devotedly and never have an idea of real comradeship.

Sam, I presume, just now is in a receptive mood—at least, I should think he would be—and if you are very good to him, if he sees that you are the one that he can turn to under any circumstances, I am sure if he does recover his eyesight he will be more ready to take advice from you. He must know now how dependent he is upon you.

However, my dear Sally, don't reproach him now. Nothing you could say would be as hard as the things he is probably saying to himself. What he wants now is sympathy, and petting and a little pity for "men are only boys grown tall, you know," and the most successful wife is the one whose love for her husband has a great deal of the maternal in it.

Be very sure, however, to tell him—in a perfectly innocent way without any comment whatever—exactly what his boss said, not forgetting his criticism of Sam.

Then, when he contrasts that with your kindness and sweetness and devotion, he may come to a right decision. For you know Sam is always a gentleman, whatever foolishness he may get himself into.

I was rather amused as well as saddened by the closing paragraphs of both your letters. You each seemed to think that the other must be perfectly happy. That to the other all her dreams had come true while Fate had sent you the rosemary and rue of life.

I hope you are old fashioned enough, Sally dear, to have read and remembered your Longfellow. Anyway, I will remind you:

"Into each life some rain must fall,
Some days must be dark and dreary."

Love,
BEE.

FLOWING GOLD

COPYRIGHT 1922 BY BOB BEACH
PRINTED BY ARABIANIST WITH METROPOLITAN MUSEUM SERVICE, NEW YORK

BEGIN HERE TODAY

Calvin Gray, stopping in Dallas in the most expensive suite in the most exclusive hotel, is the enemy of Colonel Henry Nelson, son of Bell Nelson, banker. Gray becomes friendly with the Briskow family, who have struck oil. Besides Gus and Ma Briskow there is a daughter, Allegheny, and a son called Bud. Pa Briskow takes Ma and Alle to the mountains, where they stay at an expensive hotel. Alle has a tutor named Mrs. Ring. Bud is sent away to school. Gray is in love with Barbara Parky, known as Bob, who buys land for Colonel Henry Nelson.

They began to dance again, and after a moment with a gently rising inflection, Desamater murmured: "You heard what I called you?" He approved of the sash that Alle used, and he became acutely conscious of the jewels resting in the palm of his left hand. "You don't care?" he said, with his lips close to her ear.

"Humph!" "I'm not caring for anything or anybody today."

It is the lot of any man in the heat of his desire to make mistakes, and Desamater erred gravely at this moment. He kissed Alle. Without warning he kissed her full and fair upon her red half-open lips.

For the briefest instant of amazement the two stood motionless in the middle of the polished floor while the phonograph brayed on. Then Alle shook herself free of her partner, and in the same movement smote him a mighty slap that sent him reeling.

With a cry he scrambled to his feet. "What the hell—?" he growled savagely.

Alle's face was chalky. Breathlessly, curiously she inquired, "What did I do that for?"

"What did I do it for? Say! You ought to be complimented—ticked to death!" Desamater rubbed his cheek and glared at her. "By God! I wish you were a man. Oh, don't worry, I won't 'sue' you again! Who the hell would, after that?" Alle opened her lips to speak, but he ran on more angrily as the pain bit into him. "Thought I meant it eh? Why, you lumbering ox—"

"Then you ain't in love with me or—anything?"

"Love?" The speaker uttered an unpleasant sound indicative of scorn. "Wake up, sister! What d'you take me for? Why, your mother talks bird talk, and your dad lives in a box stall and eats oats with his knife! Here I kiss you along a little bit—slip you a kiss as I would any girl, and you—you—"

Desamater stuttered impatiently. "Love?" I guess I'm the first regular fellow that ever gave you a chance."

Desamater was surprised when his pupil turned her back upon him strode to the nearest window, and flung it open as if for air; his surprise deepened when she faced him again and moved in his direction. Her expression caused him to utter a profane warning, but she continued to bear down upon him, and when she reached out to seize him, he struck at her as he would have struck at a man.

To those who are familiar with Burlington Hotel, it will be remembered that the hotel is pitched upon a slope and that the rooms on the first floor of the east wing are raised a considerable distance above the lawn. The windows of these east rooms, overlook the eighteenth green, and during tournaments they are favorite vantage points of golf widows and enthusiasts who are old to follow the competitors around the course. Today they were filled, for an international title was at issue and Herring, prince of amateurs, was playing off the final round of his match with the dour Scotch professional McLeod.

A highly enthusiastic "gallery" accompanied the pair, a crowd composed not only of spectators but also of officials, defeated players, newspaper writers, camera men, caddies, and the like.

Out of the air overhead came the sound of a disturbance, and every face turned. A most amazing thing was in the way of happening, a phenomenon unique in the history of tournaments, for a man was being thrust forth from one of the hotel windows, perhaps twenty-five feet above the ground—a writhing, struggling, kicking man with fawn-colored spats. He was being ejected painfully but firmly, and by a girl—a grim-faced young woman of splendid proportions. For a moment she allowed him to dangle; then she dropped him into a hand-some Dorothy Perkins robe. He landed with a shriek. Briefly the amazon remained framed in the case, staring with dark defiance down into the courtyard, her hair deep brown was heaving, her smoky hair was lightly disarranged, she allowed her eyes to rest upon the figure entangled among the thorns beneath her, then she closed the window.

Mrs. Ring was waiting on the veranda for Gus Briskow when he returned to the hotel about dark. He had learned to dread the sight of her on that veranda for it was her favorite resigning place—what Gus called her "quitting spot"—and it was evident tonight that she was in a quivering mood, a mood more hysterical than ever before. It was some time before he could get at the facts, and even then he could not fully appreciate the enormity of the disgrace that had overwhelmed Alle's instructor.

CHILDREN'S FROCKS

Belts are coming in for a revival of attention in certain of the French designed children's frocks. Although the dresses are still straight from yoke or neckline, the belts are tucked amazingly low, an inch or two above the short hems.

EVERETT TRUE BY CONDO

HAVE YOU EVER HEARD OF INDIVIDUALS WITH SUCH STRONG PERSONALITY THAT WHEN THEY ENTER A ROOM THEY COMPLETELY AND UNMISTAKABLY FILL IT?

YEAH.

So HAVE I!! AND ONCE IN A WHILE I'M THROWN INTO CONTACT WITH AN INDIVIDUAL THAT ACCOMPLISHES THE SAME RESULT WITH ONIONS!!!

ONE ACCOMPLISHMENT THAT ALLEGHENY MASTERED WITH GRATIFYING EASE WAS DANCING. IT CAME NATURALLY TO HER, FOR BOTH SHE AND BUDDY WERE FULL OF MUSIC.

Having schooled her in the simpler forms of ballroom dancing, Desamater suggested a course in the deeper intricacies of fancy dancing. "You're getting on," he told her, one day. "That last was splendid—top hole—absolutely."

It was on that afternoon that Desamater told the clerk of discovering Ma Briskow alone in the woods. There was an open golf tournament at the Notch, prominent amateurs and professionals were competing, and the hotel was crowded to its capacity with players, fashionable followers of the game and a small army of society reporters and sport writers.

Desamater was especially agreeable today, more than usually flattered. Not for some time did his scholar become conscious of the subtle change in his demeanor.

They had become well acquainted by now and were on a basis of easy familiarity, nevertheless it came as a shock to Alle to be called by her first name—such a shock that she missed a step and trod on Desamater's foot. They came to a pause.

The dancing master was tall and slim, his face was on a level with hers, and now he smiled into it saying, "My mistake my dear."

"I reckon it was." The girl's eyes were glowing queerly, and the man was amused at her evident agitation.

96 Attend 36th Alumni Banquet At McKenzie Hotel

The thirty-sixth annual high school alumni banquet held at the McKenzie hotel last evening proved a delightful affair, the class of 1918 entertaining in honor of the class of '23.

A lively evening started when the ninety-six alumni marched into the dining room as the McKenzie orchestra played a grand march. The long tables were decorated with baskets and vases of carnations.

Acting as toastmistress was Miss Sara Slattery of the class of '18. The address of welcome was given by Miss Grace Wilson, '88, in the absence of Harry Woodmansee. Miss Wilson who has been visiting with her sister in Goodrich and friends of this vicinity for several months past was one of the eight students to graduate from the second class completing work in the Bismarck high school.

Other members on the program were as follows:

Vocal solo..... Eugene Hahn, '23
"A Bit of Advice"..... Lucille Hall, '19
Vocal solo..... Tyler Kludt, '22
Prize essay, "Smilin' Through"..... Mabel Larsen

"Looking Backward"..... Marian Staley, '22
Entertainment..... Dark Clouds
Response..... Terrence Halloran, president class '23.

Announcement was made at the banquet that Miss Mabel Larsen of '21 had been awarded the prize given by the alumni for the best essay.

"The dark clouds," composed of Archie McPhee, William Ankenman, and Terrence Halloran made a big hit with the audience. They brightened up the evening's jollity with singing and jiggling. It was a stunt feature introduced for the first time at a dignified alumni banquet.

Following the banquet a short business session was held with Angelo Holta presiding in the absence of Miss Mary Huber, president. Officers elected by the alumni association were: Edgar Houser, president; Mrs. Richard Penwarden, treasurer; Miss Hazel J. Pierce, secretary. The alumni banquet next year will be in charge of Miss Pierce.

At the conclusion of the business meeting the gay throng joined in dancing in the McKenzie lobby. Those attending the banquet were as follows:

William Ankenman, Robert Birdzell, Mr. Bird, J. L. Bell, Donald Bertinelli, Jack Burke, Russell E. Barneck, Betty Dunham, John Dunro, Lester Elness, Ernest Elness, Roland Fisher, Myrtle Freeburg, Paul Goddard, Charles Gobel, Helen Gross, Mrs. Arthur Guasner, Dorothy Huber, Eugene Hahn, Lucille Hall, F. Editors Receive Copies of Speech On Roosevelt

Newspaper editors who made the trip through the western part of the United States last summer with the National Editorial Association have received copies of a booklet containing the address given by Dr. V. H. Stickney of Dickinson, North Dakota, at the laying of the foundation of the Roosevelt Memorial at Medora by the National Editorial Association on July 11, 1922.

The address is a valuable little document since it was given by a man who came to the North Dakota territory in an early day and had a personal acquaintance with Roosevelt when he was a ranchman in the Badlands. The speech which was given as a response for the old time neighbors and friends of Roosevelt reflects the impression made upon them by Roosevelt when he was a young man in search of health. The early practice of Dr. Stickney embraced fifty thousand square miles of the old cow country.

The little booklet, containing only twenty-four pages, has a beautiful description of Roosevelt with whom he was associated, and the cow country. A short pen-sketch of Roosevelt is found in the following words of Dr. Stickney:

"The first time I met him I was deeply impressed by his strong personality. He had breezed into our little town from the north one day in the early spring of 1886, a strange type of fellow in large spectacles and tattered garments. His face was sun-burned, his feet bruised and blistered from a tedious tramp over rough trails. He had anticipated the sterner court of the vigilantes by capturing a brace of outlaws in the Bad Lands, some fifty miles north and with watchful eye and every-ready gun brought them in over the almost impassable roads, landing them safely in the county jail at Dickinson, to be tried by a court of law."

"I remember him then as a spare, energetic young man, very much alive and very much in earnest. His face, never handsome, was always animated and cheerful, his ready smile assuring. His gaze was direct often inquiring as his eyes narrowed behind the heavy lenses of his spectacles. His square set jaw indexed strength of character, determination the fighting jaw. His teeth were strong, regular and very much in evidence, and he used to snap them together with a click as he bit off his carefully enunciated words—a habit that some of you will recall, who have heard him from the platform when he drove home his argument with blows of clean-cut Anglo-Saxon speech. In conversation he was direct, forceful and entertaining, showing an exactness of knowledge on many subjects that could come only of extensive reading. He liked rough company and hardy companionship but bore a natural dignity that disarmed all attempts at familiarity. He delighted in the drudgery of the cowboy and the hunting parties that flung back and forth in camp, but a course story told in his presence was so treated as an affront to his high standard of decency."

The speech given by Dr. Stickney obtains its value from the fact that the sketch given is intimate and personal in tone, very much as if the

"THE HINDU"

WALKER WHITESIDE

Walker Whiteside is to be a Bismarck visitor on Wednesday June 6th, at which time he will be seen in the fascinating character of Prince Tamar in "The Hindu." This thrilling play of the mysteries of India was produced by Mr. Whiteside more than two years ago, and was presented by him in New York and Chicago all of last season. This year has been devoted to a very long trans-continental tour which has embraced the entire country. The coming visit of Mr. Whiteside will mark his fourth appearance in Bismarck within the past few years. The last play in which he appeared in this city was "The Master of Ballantiae." Prior to that he gave us "The Melting Pot" and "The Typhoon." The last named play he did in London, where he believed well deserved success. "The Hindu" is a play of the moment in that it deals with the world wide revolution which is rocking the universe. India is the scene of a desperate attempt to foment a bloody rebellion, and Prince Tamar's gorgeous estate in Faraway Southsea is headquarters of the international plotters. Secret and Yard detectives from London frustrate the rascals however, after an exciting series of glorious adventures, and all ends happily, although in most surprising fashion. Scenes of luxurious splendor serves to make "The Hindu" a treat for the eye, and the ear is likewise pleased by the weird and melodious sounds and music of the mysterious orient. In Walker Whiteside's fine New York company will be found Miss Sydney Shields, one of the reigning stage beauties of the day, and an emotional actress of unbounded ability. Harold Voshurgh, Harold DeBecker, Grant Sherman, Santos Robert, Edwin Eaton, Elmer Johns, Maude Grant, and the Hindu wonder workers, Pazumba and Desylva, will likewise interpret important character parts in "The Hindu."

The speech given by Dr. Stickney obtains its value from the fact that the sketch given is intimate and personal in tone, very much as if the

REINVESTING VICTORY BOND FUNDS
With maturing Victory Bonds releasing a large amount of money for reinvestment, the problem is raised as to how the funds can be placed to the best advantage.

Presumably, the purchaser of this kind of securities is guided by two considerations—first, safety of principal; second, prompt and sure payment of interest.

To this class of investors our certificates of deposit or a savings account should be attractive inasmuch as they meet the requirements for a sound investment. Principal is secured by the resources of a strong, conservative institution, and interest is paid promptly on due date.

96 Attend 36th Alumni Banquet At McKenzie Hotel

The thirty-sixth annual high school alumni banquet held at the McKenzie hotel last evening proved a delightful affair, the class of 1918 entertaining in honor of the class of '23.

A lively evening started when the ninety-six alumni marched into the dining room as the McKenzie orchestra played a grand march. The long tables were decorated with baskets and vases of carnations.

Acting as toastmistress was Miss Sara Slattery of the class of '18. The address of welcome was given by Miss Grace Wilson, '38, in the absence of Harry Woodmansee. Miss Wilson who has been visiting with her sister in Goodrich and friends of this vicinity for several months past was one of the eight students to graduate from the second class completing work in the Bismarck high school.

Other members on the program were: Eugene Hahn, '23, "A Bit of Advice"; Lucille Hall, '19, "Vocal solo"; Tyler Kludt, '22, "Prize essay, 'Smiling Through'"; Mabel Larsen, "Looking Backward"; Marian Staley, '22, "Entertainment"; "Dark Clouds Response—Terrence Halloran, president class '23."

Announcement was made at the banquet that Miss Mabel Larsen of '23 had been awarded the prize given by the alumni for the best essay, "The dark clouds," composed of Archie McPhee, William Ankenman, and Terrence Halloran made a big hit with the audience. They brightened up the evening's jollity with singing and jiggling. It was a stunt feature introduced for the first time at a dignified alumni banquet.

Following the banquet a short business session was held with Angelo Holta presiding in the absence of Miss Mary Huber, president. Officers elected by the alumni association were: Edgar Houser, president; Mrs. Richard Penwarden, treasurer; Miss Hazel J. Pierce, secretary. The alumni banquet next year will be in charge of Miss Pierce.

At the conclusion of the business meeting the gay throng joined in dancing in the McKenzie lobby. Those attending the banquet were as follows:

William Ankenman, Robert Birdzell, Mr. Brod, J. L. Bell, Donald Bernholt, Jack Burke, Russell E. Barneck, Betty Dunham, John Dancy, Lester Elness, Ernest Elness, Roland Fisher, Myrtle Freeburg, Paul Goddard, Charles Gobel, Helen Gross, Mrs. Arthur Gussner, Dorothy Huber, Eugene Hahn, Lucille Hall, F. His face was sun-burned, his feet bruised and blistered from a tedious tramp over rough trails. He had anticipated the sterner court of the vigilantes by capturing a brace of outlaws in the Bad Lands some fifty miles north and with watchful eye and every ready gun brought them in over the almost impassable roads, landing them safely in the county jail at Dickinson, to be tried by a court of law."

"I remember him then as a spare, energetic young man, very much alive and very much in earnest. His face, never handsome, was always animated and cheerful, his ready smile assuring. His gaze was direct often inquiring as his eyes narrowed behind the heavy lenses of his spectacles. His sense of law in the dexed strength of character, determination the fighting jaw. His teeth were strong, regular and very much in evidence, and he used to snap them together with a click as he bit off his carefully enunciated words—a habit that some of you will recall, who have heard him from the platform when he drove home his argument with blows of clean-cut Anglo-Saxon speech. His conversation he was direct, forceful and entertaining, showing an exactness of knowledge on many subjects that could come only of extensive reading. He liked rough company and hardy companionship but bore a natural dignity that disarmed all attempts at familiarity. He delighted in the drawl wit of the cowboy and the boisterous repartee that flashed back and forth in camp, but a coarse story told in his presence was repented as an affront to his high standard of decency."

"THE HINDU"

WALKER WHITESIDE

Walker Whiteside is to be a Bismarck visitor on Wednesday June 6th, at which time he will be seen in the fascinating character of Prince Tamar in "The Hindu". This thrilling play of the mysteries of India was produced by Mr. Whiteside more than two years ago, and was presented by him in New York and Chicago all of last season. This year has been devoted to a very long trans-continental tour which has embraced the entire country. The coming visit of Mr. Whiteside will make his fourth appearance in Bismarck within the past few years. The last play in which he appeared in this city was "The Master of Ballantrae". Prior to that he gave as "The Melting Pot" and "The Typhoon". The last named play he did in London, where he achieved well deserved success. "The Hindu" is a play of the moment in that it deals with the world wide revolution which is rocking the universe. India is the scene of a desperate attempt to foment a bloody rebellion, and Prince Tamar's gorgeous estate in faraway Siam is headquarters of the international plotters. Scotland Yard detectives from London frustrate the rascals however, after an exciting series of glorious adventures, and all ends happily, although in most surprising fashion. Scenes of luxurious splendor serves to make "The Hindu" a treat for the eye, and the ear is likewise pleased by the weird and melodious sounds and music of the mysterious orient. In Walker Whiteside's fine New York company will be found Miss Sydney Shields, one of the reigning stage beauties of the day, and an emotional actress of unbounded ability. Harold Vosburgh, Harold DeBecker, Grant Sherman, Santos Roberi, Elwyn Eaton, Elinor Johns, Maude Grant, and the Hindu wonder workers, Pazampat and Desayla, will likewise interpret important character parts in "The Hindu."

The speech given by Dr. Stickney obtains its value from the fact that the sketch given is intimate and personal in tone, very much as if the

The Honor of a Flower

PURE, spotless and tender is the fragrant Flower that conveys our message of love, and honor to those great Heroes of our country who have died that we might live!

There is no greater homage that can be paid to them—words are said and pass on through the air—actions are but lasting for the moment—Flowers carry the sweet sentiment of love and wither and die over the graves of our heroes—as they have died for us.

REINVESTING VICTORY BOND FUNDS
With maturing Victory Bonds releasing a large amount of money for re-investment, the problem is raised as to how the funds can be placed to the best advantage.

Presumably, the purchaser of this kind of securities is guided by two considerations—first, safety of principal; second, prompt and sure payment of interest.

To this class of investors our certificates of deposit or a savings account should be attractive inasmuch as they meet the requirements for a sound investment. Principal is secured by the resources of a strong, conservative institution, and interest is paid promptly on due date.

SUPPORT THE COMMISSION
Next Monday evening bids will be opened for a new water system for Bismarck. Utilization of the present plant is to be considered also. It should be understood that the commission is not as yet sold on any plan. Each member approaches the issue with an open mind.
But it is essential that the city commission receive the best advice and support of the people generally. Their task is a hard one and there is every evidence that they are seeking to solve this important and vital issue in a sane manner.
The presence of a number of the businessmen at the meeting Monday evening would be encouraging and indicative of a proper interest in one of the greatest civic problems Bismarck probably has had to solve in many years.
There should be no factionalism or parish politics in the settlement of the water controversy—an issue that has divided the city and militated against progress. The decisive vote at the bond issue; the election of John Larson and John French by large majorities and public opinion generally reflect a most insistent demand that the water issue be settled RIGHT and for all time.
The selfish interests of any utility, the personal greed or graft of any special clique should not stand in the way of an honest and efficient settlement of this problem where the health of the citizens and the future development of the best little city in the world are at stake.
Members of the commission state they intend to move slowly. They have announced that it is not their intention to confiscate any man's property—but to deal fairly and above board with each and every interest involved. There can be no speedy nor effective solution along any other line.
Attend the meeting next Monday evening and lend all possible assistance to the Commission in settling the vital issues involved.

A CITIZENS' COMMITTEE
Realizing that the problem involves a great outlay of the taxpayers money, the city commission has deemed it wise to appoint a special citizens' committee to cooperate, aid and advise the commissioners in the water controversy. It would seem that a wise selection has been made.
P. C. Remington is representative of the banking interests of the city and should be in a position to advise wisely upon financial matters involved. As representative of the retail interests is A. W. Lucas, a former mayor, and conversant with the various phases of the water works controversy. Julius Sells is a manufacturer and distributor and vitally interested in the proper settlement of the issue. He has taken an active part in the past in this matter. The professional men are well represented in Dr. Ramstad. It is the better part of wisdom to have a man skilled in medical science who can give valuable advice especially upon the matter of filtration and other problems that affect the general health of the community. H. J. Duemeland for the jobbing interests is a happy choice too. He is president of the Bismarck Rotary club and representative generally of its business interests.
This committee should be able to aid materially in the settlement of the big problem before the commission.

SAVING THE PARKS
The fight to keep the national parks free from exploitation by private interests will be continued in the present session of Congress.
Water power interests in the West are determined to convert some of the great streams, scenic falls and forest areas in various national park properties to their own private use in developing light and power projects. It is said that many of these proposed schemes would utterly destroy regions of surpassing natural beauty rightfully belonging to the people as playgrounds.
The secretary of the National Parks Association suggests that if people would translate the proposed projects into terms of the parks near home, they would appreciate better the danger confronting the national parks. Nobody wants the village greens of the smaller towns or the beautiful parks of the larger towns laid waste, their trees cut down, their streams and falls deflected and their open spaces filled with power plants so that private concerns may profit. This is just what the water power interests propose to do in the national reservations.

JEWS
Did you ever know a Jewish farmer? There are 75,000 of them in the United States, according to the Jewish Agricultural Society.
These 75,000 till farms totaling a million acres, value 100 million dollars.
In 1900, only 216 Jewish farmers in America. Their gradual swing toward farming is a curious economic development. They will make good at farming as they make good at every other industry they tackle. The Jew is traditionally a trader, not a farmer, the result of centuries of persecution, driven from pillar to post.
They, not the meek, are inheriting the earth.

DIPHTHERIA
The diphtheria death rate has been cut in half in the last three years by using the Schick Test, announces Dr. Hermann M. Briggs, the N. Y. commissioner of health.
So another dread disease is getting under control, its virtual elimination only a matter of time and sense. One after the other, science conquers the germ maladies. Yellow fever is as good as gone. Smallpox is becoming rare.
Pasteur, father of modern bacteriology, declared it "with the power of man to cause the parasite diseases to disappear from the surface of the earth." People laughed at him then. Now it begins to look as if he were right.

ADVENTURE OF THE TWINS
By Olive Barton Roberts
It was Frances Brown's potato patch that kept the Ragdies busy.
From the very first minute the potatoes started to grow, there was trouble. The little green shoots went up into the air and sunshine and daylight of the potato field, and the little brown roots went down through the ground into the dimness of Raggy Land.
But when Farmer Brown stood on his porch and said, "My, my! But the potatoes are growing finely," he never suspected the things that were happening under the ground.
In the first place, there were the spring rains. It rained and it rained all through April and part of May. Just because the dark green potato shoots grew so fast people said, "That's good growing weather, just see!"
But I'll tell you what was happening. The Ragdies rolled up their sleeves and dug ditches to carry the water away. If they hadn't, Raggy Land would have been flooded and the tatoes washed clear out of the ground.
Then came dry weather when there was no rain at all, at all. The young potatoes just forming on the ends of the roots, opened their sleepy eyes and said, "We're thirsty. Please give us a drink."
So the Ragdies carried water from the brook in their little buckets and watered them.
Nancy and Nick were as busy as mailers helping. In their magic shoes they looked like Ragdies, too. And nearly as ragged, for their clothes were almost worn out with farming.
Then the potato-bugs! They just sat there in their striped coats as though they owned the place. They had to be chased every day.
But it was fun. The Twins liked being useful.

FLOWING GOLD

BEGIN HERE TODAY
Calvin Gray, stopping in Dallas in the most expensive suite in the most exclusive hotel, is the enemy of Colonel Henry Nelson, son of Bell Nelson, banker. Gray becomes friendly with the Briskow family, who have struck oil. Besides Gus and Ma Briskow there is a daughter, Allegheny, and a son called Bud. Ma Briskow takes Ma and Alle to the mountains, where they stay at an expensive hotel. Alle has a tutor named Mrs. Ring. Bud is sent away to school. Gray is in love with Barbara Park, known as Bob, who buys land for Colonel Henry Nelson.

NOW GO ON WITH STORY
At such times Alle was more than disagreeable. Hate, flamed in her eyes, she beat herself with her fists, she kicked the furniture, and she broke things. Once she even butted her head against the wall, uttering language, meanwhile, that all but caused her companion to swoon.
Mrs. Ring resigned after this final exhibition, but, lacking the courage to face Alle in a mood like that, she went to Gus Briskow.
"It is simply impossible to remain," she told him. "Already I'm a physical wreck, for I never get a moment's rest. The salary is attractive, but Allegheny is too much for me."
"You're kind," worked up. "Miz' Ring, maybe I can make it pleasant for you."
"In what way may I ask?"
"Well, by payin' you more."
"You are generous. The salary we agreed upon isn't low."
"Try it, ma'am, for a little while. Maybe it won't bother you so much after you get used to it. Alle likes you."
"And I—I am interested in her. She is progressing too; in fact, I have never seen anyone learn more rapidly. But—she is so unusual still, perhaps I am the one—perhaps it is my duty, under the circumstances—"
With this disposition to compromise the father had little difficulty in dealing, so the daily routine was continued.
Alle was sitting alone in her room one evening, fagged out from a hard day. Some people were talking on the veranda outside her window, and she heard one say:
"The girl can look really stunning."
"Exactly. I don't understand why she gets her looks, for her parent, as you know, is a failure. You know what they were?"
Alle needed no clearer indication of who was under discussion.
"She's a glorious rider," the first speaker was saying. "She passed me the other day, going like a flash, with her face blazing and that big, lively chestnut running flat. The way she took that curve about the Devil's Slide brought my heart into my mouth."
The breathless eavesdropper felt a hot wave of delight pour over her, her very flesh seemed to ripple like the fur of a cat when it is stroked.
"Oh, she's a picture, mounted! Seems to have complete confidence in herself; and the strength of a gladiator, too. But—My God! when she's on her feet! And have you heard her talk?" Evidently the other speaker had, for there came the sound of laughter, a sound that stabbed Alle Briskow like a bayonet and left her white and furious.
She was unusually silent and somber for the next three or four days; she went through her exercises without vim; at her studies she was both stupid and sullen. When Mrs. Ring's patience was exhausted and her frayed nerves finally gave out, Alle rounded upon her with a violence unparalleled.
In a panic Mrs. Ring sought out Gus Briskow and again resigned. By this time, however, the novelty of her resignation had largely worn off, for seldom did more than two weeks elapse without a hysterical threat to quit. Gus decided after some consideration to write Calvin Gray and offer to pay his traveling expenses if he would come to Burlington Natch for a few days.

CHAPTER XIV
Alle Shows Her Teeth
One accomplishment that Allegheny mastered with gratifying ease was dancing. It came naturally to her, for both she and Buddy were full of music.
Having schooled her in the simpler forms of ballroom dancing, Delamater suggested a course in the deeper intricacies of fancy dancing. "You're getting on," he told her, one day. "That first was splendid—top hole—absolutely."
It was on that afternoon that Delamater had told the clerk of discovery Ma Briskow alone in the woods. There was an open golf tournament at the Natch, prominent amateurs and professionals were competing, and the hotel was crowded to its capacity with players, fashionable followers of the game and a small army of society reporters and sport writers.
Delamater was especially agreeable today, more than usually flatteringly. Not for some time did his scholar become conscious of the subtle change in his demeanor.
They had become well acquainted by now and were on a basis of easy familiarity, nevertheless it came as a shock to Alle to be called by her first name—such a shock that she missed a step and trod on Delamater's foot. They came to a pause.
The dancing master was tall and slim his face was on a level with hers, and now he smiled into it saying, "My mistake my dear."
"I reckon it was," The girl's eyes were glowing queerly, and the man was amused at her evident ag-

ation. Her first word had thrown the poor thing into a flurry.
They began to dance again, and after a moment with a gently rising inflection, Delamater murmured, "You heard what I called you?" He approved of the sashet that Alle used, and he became acutely conscious of the jewels resting in the palm of his left hand. "You don't care?" he said, with his lips close to her ear.
"Humph!" I'm not caring for anything or anybody today.
It is the lot of any man in the heat of his desire to make mistakes, and Delamater erred gravely at this moment. He kissed Alle. Without warning he kissed her full and fair upon her red half-open lips.
For the briefest instant of amazement the two stood motionless in the middle of the polished floor while the phonograph brayed on; then Alle shook herself free of her partner, and in the same movement she smote him a mighty slap that sent him reeling.
With a cry he scrambled to his feet. "What the hell—" he growled savagely.
Alle's face was chalky. Breathlessly, curiously she inquired, "What'd you do that for?"
"What did I do it for? Say! You ought to be complimented—tickled to death." Delamater rubbed his cheek and glared at her. "By God! I wish you were a man. Oh, don't worry, I won't touch you again! Who the hell would, after that?" Alle opened her lips to speak, but he ran on more angrily as the pain bit into him. "Thought I meant it eh? Why, you lumbering o—" "Then you ain't—in love with me or—anything?"
"Love?" The speaker uttered an unpleasant sound—intentionally or not. "Wake up, sister. What you take me for? Why, your mother talks bird talk, and your dad lives in a box stall and eats out with his knife! Here I kid you along a little bit—ship you a kiss as I would any girl, and you—you—" Delamater stuttered impatiently. "Love?" I guess I'm the first regular fellow that ever gave you a chance."
Delamater was surprised when his pupil turned her back upon him, strode to the nearest window, and flung it open as if for air; his suspicion deepened when she faced him again and moved in his direction. Her expression caused him to utter a profane warning, but she continued to bear down upon him, and when she reached out to seize him, he struck at her as he would have struck at a man.
To those who are familiar with Burlington Natch, it will be remembered that the hotel is pitched upon a slope and that the rooms on the first floor of the east wing are reached by a considerable distance above the lawn. The windows of these east rooms, overlooking the eighth green, and during tournaments they are favorite vantage points of golf widows and enthusiasts who are too old to follow the competitors around the course. Today they were fitted, for an international title was at issue and Herring, prince of amateurs, was playing off the final round of his match with the dour Scotch professional McLeod.
A highly enthusiastic "gallery" accompanied the pair, a crowd composed not only of spectators but also of officials, defeated players, newspaper writers, camera men, caddies, and the like.
Out of the air overhead came the sound of a disturbance, and every face turned. A most amazing thing was in the way of happening, a phenomenon unique in the history of tournaments, for a man was being thrust forth from one of the hotel windows, perhaps twenty-five feet above the ground—a writhing, struggling, kicking man with fawn-colored pants. He was being ejected peacefully, but firmly, and by a girl—grim-faced, young, woman of splendid proportions. For a moment she allowed him to dangle; then she dropped him into a hand, some Dorothy Perkins rosebush. He landed with a shriek. Briefly the amazon remained framed in the case- ment, staring with dark defiance down into the upturned faces; her deep bon was heaving, her smoky hair was lightly disarranged; she allowed her eyes to rest upon the figure entangled among the thorns beneath her, then she closed the window.

Mrs. Ring was waiting on the veranda for Gus Briskow when he returned to the hotel about dark. He had learned to dread the sight of her on that veranda for it was her favorite resigning place—what Gus called her "quitting spot"—and it was evident tonight that she was in a quitting mood, a mood more hysterical than ever before. It was some time before he could get at the facts, and even then he could not appreciate the enormity of the diagram that had overwhelmed Alle's instructors.

MAGICIANS OF MINOT LIVE UP TO NAME

Snake in Bismarck's Drives and Smash the Ball "Where They Ain't"

NEW FIELDER HERE

They have nick-named the Minot baseball club the "Magicians" and the way they've been manipulating the ball down at the local park for the last couple of days there are some fans who believe there is something in a name. Yesterday Kinney, a port side flinger, had the Bismarck crew hitting them where the fielders were most of the time, whether they socked them hard or not. Oliver in center field for Minot had seven put-outs while Denison in right caught three.

The score was 11 to 0, with Minot on the long end. Good fielding by Minot and splendid pitching by Kinney was backed up by some hard swatting by the northern city boys. Reider in center for Bismarck got a hand in the seventh when he made a nice one-handed catch of Oliver's long drive, while Condon, a new man in left, drew a hand for snaking a hard drive in left. Manager Tom Shanley was still going strong, handling 16 chances at second with erring.

Bismarck came near scoring at times, but the punch was lacking or the ball went into the hands of a handy Minot fielder.

Condon, the new left-fielder secured by Bismarck from Aberdeen, got a good start, with two hits and some nice fielding work. Manager Shanley expects Al Becker, pitcher and outfielder in today. He played with the Mitchell team of the South Dakota league in 1921 batted over 300 and had a pitching record of nine wins to six losses. Charlie Becker, a new man in right, was also a part of the game last night. There is some talk that he may be in the box for Bismarck tomorrow. It is possible that the local line-up will be otherwise changed by the Sunday game.

Minot plays here tonight at 6:15, Sunday at 3:00 P. M., and Monday at 6:15 p. m. The team then goes on road and the Bismarck fans won't have a chance to see baseball for some days.

RECRUIT HOLDS NEW ROCKFORD

Farm Boy From Denhoff Sensation in First League Game

New Rockford, May 26.—Gashel-schen, that farm kid from Denhoff, held Pickering's bunch at New Rockford to three hits and struck out 10 men in the league opener there yesterday. Jamestown took a tight game by a 3 to 2 score.

Keegan was on the mound for the New Rockford-Carrington team, and was well supported, but Whiting's crowd garnered five hits.

It was Gashel-schen's first appearance on an honest to goodness mound, and the first time he ever put his toe against a rubber place. In his previous experience he has used a rock or a built-up mound out on the farm.

Batteries: Gashel-schen and Croake; Keegan and Martin.

But today when one speaks of Shelby, you can rest assured he means Shelby, Mont.
If you're writing a letter to anybody here, just address it "Shelby, U. S. A." Postal employees need no further direction, it seems.

And it contained a check for several hundred dollars!
Just another proof that the Dempsey-Gibbons bout has made Shelby's name world-wide.

YANKEES FALL AGAIN BEFORE PHILADELPHIA

Fast Going Connie Mack Team Now Recognized as One of the Best

GET THREE HOMERS

Chicago, May 26.—Connie Mack's rejuvenated Philadelphia Athletics continued today to be the American League sensation. After their second consecutive victory over the league champion New York Yankees, critics who did not rate the Athletics high in the pre-season dope, predicted that they will finish in the first division.

Not only are the Athletics closing the gap between themselves and the Yanks and filling the seats in Shibe park but they are drawing away from the strongest of the western teams and tightening a hold on second place that the westerners will find hard to break, when they come east presently.

The Athletics got three home runs in their second defeat of the Yanks, 4 to 2.

Tigers Lose.
The Detroit Tigers lost ground again by yielding to the effectiveness of Urban Faber and the Chicago White Sox won, 5 to 3. With a chance to catch the Tigers, the Washington Senators fell before Boston, 6 to 5, the reliable Walter Johnson weakening after his teammates had given him a two-run lead, usually enough for him.

Pittsburgh won its seventh consecutive contest and the second game of its series with St. Louis, 2 to 1, to make move secure its hold on second place in the National.

Giants Win as Usual.
The New York steam roller continued to roll over the Philadelphia Nationals, the Giants outslug-ging the Quakers, 12 to 8. Brooklyn slipped from a short stay in the first division by losing its string to its grasp up to the ninth inning when the Boston Braves opened a batting rally in the ninth inning, winning 7 to 6.

Grover Alexander let down Cincinnati with two hits and Pete Donahue, who has fared badly in recent starts, was given poor support. The Cubs passed both the Cardinals and Robins and rested in third place. The score was 4 to 0.

Rain prevented Cleveland-St. Louis American league game at St. Louis.

Naylor's Fifth Win.
Rollie Naylor, undefeated Athletic pitcher, turned in his fifth straight triumph. Shawkey pitched a fine game for New York until the eighth when he weakened.

The first long run came in the second when Welch put the ball into the left field bleachers, tying the score.

Bykes put the Athletics ahead in fight with a hit into the bleachers. New York tied the count in the seventh, but Matthews opened the eighth for the Athletics with a home run into right field.

This unnerfed Shawkey and Philadelphia scored another run before the inning ended. In the ninth two pinch hitters failed to reach first for the Yankees.

RODGERS IS WINNER OVER 'GERMAN OAK'

Downs Sigfrid in Two Falls, Showing Himself the Master Through the Bout

Stanley Rodgers, Bismarck heavy-weight wrestler, showed his class here again last night when he cut down "The German Oak" in two straight falls catches-an wrestling, Sigfrid, "The German Oak" came to Bismarck with a good record behind him, having beaten Gardini the Pacific Coast wrestler, at Chicago a few days ago. He was obtained for Bismarck because he was on his way to Canada to fill engagements, and could stop at Bismarck with little additional expense.

Rodgers took the first fall with a hammer lock in 31 minutes and the second with a short arm scissors in 32 minutes.

The match was a pretty one all the way through. Sigfrid, said he weighed 200 and Rodgers gave him weight as 187. Sigfrid has a marvelous physique, particularly in the shoulders, arms and neck. He claims to have held the world championship at Greco-Roman style of wrestling, which is with the upper part of the body only.

Rodgers was the aggressor and secured many holds on Sigfrid early in the game, but the German broke away from them. He seemed to tire under continued hammering by Rodgers.

One of the best matches of the evening was the first preliminary,

EDDIE COLLINS GOING STRONG IN AMERICANS

Veteran Is Playing Snappier Game Than Ever and Hitting Hard

RUTH ALSO BETTER

Chicago, May 26.—Eddie Collins, star second baseman with the Chicago White Sox, is throwing the biggest surprise of the American League season, judging from his performance to date revealed in averages compiled today.

Collins is playing a snappier game than ever, fielding with remarkable brilliancy, and is threatening to capture the batting honors of the league—all after seventeen years of major league service and at a time when thousands of fans are raising the cry that he is slowing up.

In answer to the chant that he is "slipping" Collins today is leading the league in base stealing with thirteen of the batters during the week, increasing his averages twenty-six points for an average of .356 for 29 games, placing him third in the list of leading hitters.

"Babe" Ruth, like Collins, is playing better baseball this season in the opinion of his admirers who say the big fellow is covering more ground, is in better physical condition, and is determined to make this his banner season. Ruth added twenty-four points to his average of a week ago and lagged four homers, running his string to eight, while Ken Williams, of the Browns, who started piling up the circuit blows before "Babe" got his eye on the ball, made only one, which was enough, however, to give him the edge over Ruth.

Ruth, in addition to closing the home run gap between himself and Williams, has tied the St. Louis star for total base honors. Ruth's hits besides his homers, include ten doubles and three triples, while Williams' blows include five doubles and three triples, in addition to nine homers.

Another department in which "Babe" is going stronger than his rivals is the scoring. Ruth has counted thirty times in his thirty-one games.

Harry Heilmann, the Detroit star, who lead the league with a mark of .513 a week ago, felt the sting of good pitching and fell into a slump. He continues to top the batters, however, with an average of .448. Dick Reiche, the former University of Illinois star, now with the Red Sox, is the runner up with an average of .387. Bing Miller of the Athletics is next with .361.

Other leading batters for twenty or more games: Ruel, Washington, .357; E. Collins, Chicago, .357; Jamieson, Cleveland, .355; S. Rice, Washington, .354; Cobb, Detroit, .350; Welch, Philadelphia, .345; Veach, Detroit, .338; Ruth, New York, .333.

Neis of the Dodgers and Traynor of the Pirates are making an impressive showing among the National League batters, none of whom, however, has been able to dispose the veteran Zack Wheat of Brooklyn, from the top of the heap.

Wheat continues in front, with an average of .447, with Grimm, also of the Pirates trailing with .404. Bot-tonley of the Cardinals is perched in third place with .399. Nies boosted his mark from .365 to .372 and Traynor went to .364 from .340.

"Cy" Williams of the Phillies is the class of the league in home run hitting having poled sixteen. He is the first major league player to pass the century mark for total base honors this season. His hits give him a total of 104 bases, which besides his homers, include six doubles and three triples.

WHEAT AGAIN
TURNS DOWN

Probable Yield in Kansas Set
At a Higher Figure

Chicago, May 26—Official figures on the probable yield of wheat in Kansas proved larger than the majority of traders here had looked for, and the wheat market took a downward swing today during the early dealings. Fine weather counted also as a bearish factor, and so, too, did weakness in corn. Rather general selling by holders of wheat was in evidence. After opening unchanged at 2.1 cents lower with July \$1.16 1/2 to \$1.17 and September \$1.14 5/8 to \$1.14 3/4 wheat underwent a decided all-around drop.

Subsequently prices continued firm today but there was a pronounced absence of speculative buying. Predictions were circulated that Russia would have 140,000,000 bushels of wheat for export this season. The close was heavy 21-8 to 25-8 cents net lower with July \$1.14 1/2 to \$1.14 5/8 and September \$1.13 to \$1.13 1/8.

CHICAGO LIVESTOCK
Chicago, May 26—Cattle receipts 500. Compared with a week ago beef steers, yearlings and beef heifers largely 25 to 40 cents higher. Lower grades mostly strong to 25 cents up. Extreme top steers \$10.00. Stockers and feeders scarce, strong to higher. Better grades of beef cows 25 cents higher. Other grades steady. Bulls steady. Light veal calves 25 to 50 cents lower. Good to choice steady.

Hog receipts 700. Market steady to 5 cents higher than Friday's average. Top \$7.60. Estimated hold-over, 2,500.

Sheep receipts 11,000. Most recent, today direct. Market for week old lambs and yearlings mostly 75 to \$1.25 lower. Spring lambs \$1.50 to \$2.00 lower. Fat sheep \$1.00 to \$1.70 lower. Heavyweight lambs closed around \$1.40 to \$1.50. Fat ewes \$6.00 to \$6.50. Direct for week total around 30,000.

ST. PAUL LIVESTOCK
St. Paul, May 26—Cattle receipts 100. Market compared with a week ago beef steers around 25 cents higher. Bulk \$8.00 to \$9.25. Fat sheep mostly steady. Bulk \$5.50 to \$8.00. Canners and cutters mostly steady. Bulk \$3.00 to \$4.25. Bologna bulls strong to 25 cents higher. Range \$4.50 to \$5.25. Good choice stockers and feeders scarce, steady to 25 cents lower. Calves receipts, none. Market compared with week ago veal calves strong to 10 cents higher. Best lights \$8.50 to \$10.00.

Hog receipts 1,400. Market about steady with packer trade of Friday Range \$6.50 to \$6.90. Rough hogs \$5.25. Pigs around \$6.65 to \$7.75.

Sheep receipts none. Market compared with a week ago genuine spring lambs about steady. Week's top 16.00. Good to choice shorn lambs \$13.00 to \$13.25. Fat ewes \$2.00 or more lower. Ewes of all weight closed at \$5.00 to \$6.00.

MAGICIANS OF MINOT LIVE UP TO NAME

Snake in Bismarck's Drives and Smash the Ball "Where They Ain't"

NEW FIELDER HERE

They have nicknamed the Minot back in club the "Magicians" and the way they've been manipulating the ball down the line has made some fans who believe there is something in a name. Yesterday Kinney, a port side flinger, had the Bismarck crew hitting them where the fielders were most of the time, whether they smacked them hard or not. Oliver in center field for Minot had seven put-outs while Donson in right caught three.

The score was 11 to 0, with Minot on the long end. Good fielding by Minot and splendid pitching by Kinney was backed up by some hard hitting by the northern city boys. Under in center for Bismarck, got a hand in the seventh when he made a one-handed catch of Oliver's long drive, while Condon, a new man in left, drew a hand for snaking a hard drive in left. Manager Tom Shanty was still going strong, handing 10 chances at second with error.

Bismarck came near scoring at times, but the punch was lacking, or the ball went into the hands of a handy Minot fielder.

Condon, the new left-fielder secured by Bismarck from Alton, got a good start, with two hits and some fine fielding work. Manager Shanty expects Al Bernier, pitcher and outfielder in today. He played with the Mitchell team of the South Dakota league in 1921 batted over 300 and had a pitching record of nine wins to six losses. Charlie Boardman is in Bismarck now and saw part of the game last night. There is some talk that he may be in the box for Bismarck tomorrow. It is possible that the local line-up will be otherwise changed by the Sunday game.

Minot plays here tonight at 6:15 Sunday at 3:00 P. M. and Monday at 6:15 P. M. The team then goes on and the Bismarck fans won't have a chance to see baseball for some days.

RECRUIT HOLDS NEW ROCKFORD

Farm Boy From Denhoff Sensation in First League Game

New Rockford, May 26.—Gashel-schen, that farm kid from Denhoff, held Pickering's bunch at New Rockford to three hits and struck out 10 men in the league opener there yesterday. Jamestown took a tight game by a 3 to 2 score.

Kegan was on the mound for the New Rockford-Carrington team, and was well supported, but Whiting's crowd garnered five hits.

It was Gashel-schen's first appearance on an honest to goodness mound, and the first time he ever put his toe against a rubber plate. In his previous experience he has used a rock or a built-up mound out on the farm.

Batteries: Gashel-schen and Croake; Kegan and Martie.

Shelby, Mont., May 26.—There are 10 Shelby in the United States.

But today when one speaks of Shelby, you can rest assured he means Shelby, Mont.

If you're writing a letter to anybody here, just address it "Shelby, U. S. A." Postal employees need no further direction, it seems.

An envelope, so marked, has just reached a local townsfolk company. It came in good season without making the circuit from coast to coast.

And it contained a check for several hundred dollars!

Just another proof that the Dempsey-Gibbons bout has made Shelby's name world-wide.

YANKEES FALL AGAIN BEFORE PHILADELPHIA

Fast Going Connie Mack Team Now Recognized as One of the Best

GET THREE HOMERS

(Chicago, May 26)—Connie Mack's rejuvenated Philadelphia Athletics continued today to be the American League sensation. After their second consecutive victory over the league champion New York Yankees, critics who did not rate the Athletics high in the pre-season dopes, predicted that they will finish in the first division.

Not only are the Athletics closing the gap between themselves and the Yankees and filling the seats in Shibe park but they are drawing away from the strongest of the western teams and dominating the hold on second place that the westerners will find hard to break, when they come east presently.

The Athletics got three home runs in their second defeat of the Yankees, 1 to 2.

Tigers Lose.

The Detroit Tigers lost ground again by yielding to the effectiveness of Urban Faber and the Chicago White Sox won, 5 to 3. With a chance to catch the Tigers, the Washington Senators fell before Boston, 6 to 5, the reliable Walter Johnson weakening after his teammates had given him a two-run lead, usually enough for him.

Pittsburgh won its seventh consecutive contest and the second game of its series with St. Louis, 2 to 1, to make more secure its hold on second place in the National.

Giants Win as Usual.

The New York steam roller continued to roll over the Philadelphia Nationals, the Giants outgunning the Quakers, 12 to 8. Brooklyn slipped from a short stay in the first division with third position in its grasp up to the ninth inning when the Boston Braves opened a battling rally in the ninth inning, winning 7 to 6.

Grover Alexander let down Cincinnati with two hits and Pete Donahue, who has fared badly in recent starts, was given poor support. The Cubs passed both the Cardinals and Robins and rested in third place. The score was 4 to 0.

Rain prevented Cleveland-St. Louis American League game at St. Louis.

Naylor's Fifth Win

Rollie Naylor, undefeated Athletic pitcher, turned in his fifth straight triumph. Shawkey pitched a fine game for New York until the eighth when he weakened.

The first local run came in the second when Welch put the ball into the left field bleachers, tying the score.

Dukes put the Athletics ahead in fifth with a hit into the bleachers. New York tied the count in the seventh, but Matthews opened the eighth to the Athletics with a home run into right field.

This uninvited Shawkey and Philadelphia scored another run before the inning ended. In the ninth two punch hitters failed to reach first for the Yankees.

RODGERS IS WINNER OVER 'GERMAN OAK'

Downs Sigfrid in Two Falls, Showing Himself the Master Through the Bout

Stanley Rodgers, Bismarck heavyweight wrestler, showed his class here again last night when he cut down "The German Oak" in two straight falls in catch-as-can wrestling. Sigfrid, "The German Oak" came to Bismarck with a good record behind him, having beaten Gardini the Pacific Coast wrestler, at Chicago a few days ago. He was obtained for Bismarck because he was on his way to Canada to fill engagements, and could stop at Bismarck with little additional expense.

Rodgers took the first fall with a hammer lock in 31 minutes and the second with a short arm scissors in 32 minutes.

The match was a pretty one all the way through. Sigfrid's size weighed 200 and Rodgers gave him weight as 187. Sigfrid has marvelously physique, particularly in the shoulders, arms and neck. He claims to have held the world championship at Greco-Roman style of wrestling, which is with the upper part of the body only.

Rodgers was the aggressor and secured many holds on Sigfrid early in the game, but the German broke away from them. He seemed to tire under continued hammering by Rodgers.

One of the best matches of the evening was the first preliminary,

a 4-round boxing match between Monticelli and Haugan, local men, who went at it hammer and tongs. Thor Jensen was awarded the referee's decision over Joe Moug in a mixed bout. Jensen wrestling and Moug boxing, but Moug insisted he was not down and then finished the round.

Seaman Smith refereed all matches and gave good satisfaction.

EDDIE COLLINS GOING STRONG IN AMERICANS

Veteran Is Playing Snapper Game Than Ever and Hitting Hard

RUTH ALSO BETTER

Chicago, May 26.—Eddie Collins, star second baseman with the Chicago White Sox, is throwing the biggest surprise of the American League season, judging from his performance to date revealed in averages compiled today.

Collins is playing a snapper game than ever, fielding with remarkable brilliancy, and is threatening to capture the batting honors of the league—all after seventeen years of major league service and at a time when thousands of fans are raising the cry that he is slowing up.

In answer to the chant that he is "slipping" Collins today is leading the league in base stealing with thirteen thefts, and made the best showing of the batters during the week, increasing his averages twenty-six points for an average of .356 for 29 games, placing him third in the list of leading hitters.

"Babe" Ruth, like Collins, is playing better baseball this season in the opinion of his admirers who say the big fellow is covering more ground, is in better physical condition, and is determined to make this his banner season. Ruth added twenty-four points to his average of a week ago and bagged four home runs, running his string to eight, while Ken Williams, of the Browns, who started piling up the circuit blows before "Babe" got his eye on the ball, made only one, which was enough, however, to give him the edge over Ruth.

Ruth, in addition to closing the home run gap between himself and Williams, has tied the St. Louis star for total base honors. Ruth's hits besides his homers, include ten doubles, and three triples, while Williams' blows include five doubles and three triples, in addition to nine homers.

Another department in which "Babe" is going stronger than his rivals is the scoring. Ruth has counted thirty times in his thirty-one games.

Harry Heilmann, the Detroit star, who lead the league with a mark of .513 a week ago, felt the sting of poor pitching and fell into a slump. He continues to top the batters, however, with an average of .448. Dick Reiche, the former University of Illinois star, now with the Red Sox, is the runner up with an average of .387. Ring Miller of the Athletics is next with .361.

Other leading batters for twenty or more games: Ruel, Washington, .357; E. Collins, Chicago, .357; Jamieson, Cleveland, .355; S. Rice, Washington, .354; Cobb, Detroit, .350; Welch, Philadelphia, .348; Veach, Detroit, .338; Ruth, New York, .333.

Neis of the Dodgers and Traynor of the Pirates are making an impressive showing among the National League batters, none of whom, however, has been able to dispose the veteran Zack Wheat of Brooklyn, from the top of the heap.

Wheat continues in front, with an average of .427, with Grimm, also of the Pirates trailing with .404. Bottomley of the Cardinals is perched in third place with .399. Neis boasted his mark from .355 to .372 and Traynor went to .364 from .340.

"Cy" Williams of the Phillies is the class of the league in home run hitting having potted sixteen. He is the first major league player to pass the century mark for total base honors this season. His hits give him a total of 104 bases, which besides his homers, include six doubles and three triples.

Washington, May 26.—Clarke Griffith has finally lost an argument. The president of the Washington American League club is willing to admit that Ty Cobb put one over on him last winter.

Griffith has reference to the trade whereby he gave up pitcher Ray Francis to Detroit for shortstop Gagnon. Francis has been going great for Cobb, while Gagnon has passed out of the American League.

Gagnon, who came to Detroit from Holy Cross last June and was sent to Rochester for a year of experience, had a good season in the International. Seeking an understudy for Roger Peckinpaugh, Griffith gave up Francis for Gagnon.

Shortly after Gagnon reported in the spring, it was discovered that he had a football knee, injured in a game with Harvard. From an understudy to Peckinpaugh, Gagnon in a short time slipped so badly that he was waived out of the league, while others not nearly so highly touted continue to stick.

Griffith frankly admits that he had one put over on him.

MICHIGAN TWINE CHOSEN

Grand Forks, N. D., May 26.—The Grand Forks county farm bureau will contract for 200,000 pounds of Michigan state prison binder twine this year, directors have decided.

The price laid down to the farmer, will be \$10.00 per 100 pounds, covering the twine cost, freight charges and cost of maintaining a county manager handle distribution.

The amount contracted for will compose about eight carloads.
